The authors would like to thank the Director General of Health Malaysia for his permission to publish this report.

The Global School-based Student Health Survey (GSHS) in Johor 2012, the first of its kind in the country, was accomplished with budget and technical support from the Ministry of Health Malaysia and World Health Organization (WHO). The research team would like to express our gratitude to the following who helped us to bring this project to a successful completion:

- Ms Melanie Cowan and Ms Leanne Riley, WHO Geneva,
- Ms Laura Kann and Ms Connie Lim, CDC Atlanta,
- Western Pacific WHO Regional Office,
- Dr Soo Chun Paul, Malaysia WHO Representative,
- Director General of Education, Ministry of Education Malaysia,
- Technical Programme Directors, Ministry of Health Malaysia,
- GSHS Survey Coordinator and Central Coordinating Team, and
- GSHS Survey Field Implementation Teams

Our appreciation to the Ministry of Education officials at the central level, states, districts and selected schools who assisted in making this study possible. We would also like to thank the stakeholders from both the Ministry of Health and Ministry of Education, for their participation at the NHMS 2012: School-based Survey Seminar held at Palm Garden Resort, Selangor on 23 September 2013, where the key findings of this study were presented. Last but not least, we extend our warm gratitude to all students from the 17 schools throughout the country who gave us their time and cooperation towards the successful conduct of this study.

Executive Summary

The 2012 Johor GSHS was conducted from 23 February to 26 April 2012 involving Form 1 to 5 students from 17 schools throughout Johor. The survey used a two-stage cluster sampling design. The objectives of this study were to determine the prevalence of health-related behaviours, risky behaviours and protective factors among secondary school students in Johor. The survey was administered using a self-administered questionnaire. The response rates at school level was 100%, with a students response rate of 86.5% (1,717 of 1,986 students responded).

Key Findings

About 61.0% of ever drinkers had their first drink of alcohol before the age of 14 years. The prevalence of current alcohol use was 9.5% and more than one third of them got their alcoholic drinks from their own families. Drunkenness was reported in 6.8% of the students. In relation to dietary behaviour, 10.6% of the students were at risk of becoming underweight, while 9.2% at risk of becoming obese. In the past 30 days, only 29.8% of the students consumed fruits and vegetables at least five times daily and almost one third of them drank carbonated drinks at least once daily. As for drug use, 1.9% of the students reported ever used drug with 89.2% of them first used drug before the age of 14 years.

Overall, 3.6% of the students reported brushing their teeth less than once daily and 85.6% brushed at least twice daily. Only 54.1% of students reported using fluoridated toothpaste. In the past 30 days, 6.3% never or rarely wash their hands after using the toilet and 15.2% never or rarely used soap when washing their hands. Suicidal ideation, suicidal plan and attempted suicide were noted among 11.3%, 8.1% and 9.7% of the students. The inability to sleep at night due to worry was noted among 6.4% of the students, while loneliness was found in 7.1% and 3.9% reported having no close friend. With regards to physical activity, 19.9% of students were found to be active in the past seven days, while almost half of them were engaged in sedentary activities. Parental or guardian supervision was reported in 14.0% of the students, while one third of them claimed had parental or guardian connectedness and less than half had reported parental or guardian bonding. Truancy was reported in 28.8% of the students.

This study found that 10.6% of students ever had sex with three quarters of them had sex for the first time before the age of 14 years. About 10.2% of the students were current cigarette smokers. Among those who ever smoked, three quarters first tried a cigarette before the age of 14 years. More than one third of the students reported exposure to secondhand smoke from people smoking in their presence, while more than half claimed had parents or guardians who used any form of tobacco. Notably, 29.1% and 28.1% of the students were physically attacked and involved in a physical fight respectively, with 35.5% who had serious injury. Having being bullied was reported in 18.5% of the students, while 13.3% were physically abused at home.

Recommendations

In view of the findings which were highlighted above, the recommendations below are targeted at students and the environment surrounding them. Overall, there is a need to upscale the empowerment of students through enhancing appropriate knowledge and skills against risky behaviours. Additionally, there is also a need to strengthen the support for students concerned through multiagency collaborative approaches. Thus, the following recommendations are made:

- i. Psychosocial factors that contribute to mental health problems particularly suicidal behaviors need to be further explored.

- ii. There is a need to increase health awareness among students on the detrimental effects of alcohol consumption and the higher probability of alcohol addiction in later life if they start drinking during their adolescent years.
- iii. Sexual reproductive health education at homes, school and community should be strengthened.
- iv. Use of creative and innovative approaches such as engaging social media to promote healthy life styles particularly on increasing physical activity and reducing consumption of unhealthy fast food, need to be explored.
- v. Further strengthening, regulation and enforcement of the Malaysia Food Act Regulation 1985 which prohibits the sales of alcoholic beverages to those below 18 years old, is called for. There is a need for minimum legal age (MLA) of alcohol consumption to be enacted.
- vi. More emphasis need to be given to inculcate caring attitudes among students towards a friendly and supportive school environment.
- vii. Existing intervention measures in the school environment such as the *Doktor Muda* Programme and the empowerment of counsellors in detection of risky behaviours, appropriate counselling and referral to relevant agencies are to be given further emphasis.
- viii. More effort is needed to strengthen parenting skills through government, private, NGOs and community platforms.

1.0 INTRODUCTION

In 2001, the WHO in collaboration with UNAIDS, UNESCO, UNICEF, and with technical assistance from the U.S. Centers for Disease Control and Prevention (CDC), initiated the development of the Global School-based Student Health Survey (GSHS). Since 2003, Ministries of Health and Education around the world have been using the GSHS to periodically monitor the prevalence of important health risk behaviours and protective factors among students. To date, more than 100 countries have completed a GSHS. This report describes results from the first GSHS conducted in Johor by the Ministry of Health Malaysia from 23 February until 26 April 2012.

The purpose of the GSHS is to provide accurate data on health behaviours and protective factors among students to:

- Help countries develop priorities, establish programmes, and advocate for resources for school health and youth health programmes and policies;
- Establish trends in the prevalence of health behaviours and protective factors for use in evaluation of school health and youth health promotion; and
- Allow countries, international agencies, and others to make comparisons across and within countries regarding the prevalence of health behaviours and protective factors.

The GSHS is a school-based survey conducted primarily among students aged 12-17 years. It measures behaviours and protective factors related to the leading causes of mortality and morbidity among youth and adults in Malaysia:

- Alcohol consumption
- Dietary behaviours
- Drug use
- Hygiene (including oral hygiene)
- Mental health problems
- Physical activity
- Protective factors
- Sexual behaviours that contribute to HIV infection, other STIs, and unintended pregnancy
- Tobacco use
- Violence and unintentional injury

1.1 Policies and Programmes for Adolescents in School

The government of Malaysia has developed various policies and programmes for adolescents and schoolchildren in the country as follows:

1.1.1 Adolescent Health Policy

The Adolescent Health Policy was developed in 2001(1). The objectives of the policy are to support the development of resilient adolescents through promotion of healthy and responsible living, preventing the health consequences of risk behaviours through promotion of wellness and provision of appropriate health care services, and promotion of active adolescent participation in health promotion and preventive activities.

1.1.2 Medical and Oral Healthcare Policy

The provision of medical and oral healthcare services to government or government aided educational institutions is mentioned in the Education Act 39, Chapter 12, section 64 and 65 (2). In line with this Act, the Ministry of Health provides comprehensive medical and oral healthcare to schoolchildren. Medical healthcare includes regular health screening and vaccination to the students while for oral healthcare, both oral health promotion and curative services are provided. In 2009, the School Health Teams visited 98.5% of secondary schools through out Malaysia and provided services to 98% of Form 3 students. In addition to that, 75.6% of secondary school students were rendered oral healthcare through the school incremental oral healthcare programme.

The *Rancangan Kesihatan Sekolah* (School Health Programme), first established in 1967 was replaced by the *Program Bersepadu Sekolah Sihat* (Health Promoting School Programme) in 1997. This programme further strengthened the delivery of healthcare services to schoolchildren, while integrating other components towards a healthy school environment (4).

1.1.3 Mental Health Programme

In Malaysia, the initiative to improve the mental health of schoolchildren first started in 2011 and is targeted to be implemented in stages. This initiative, known as the Healthy Mind Programme focuses on early identification of students at risk through screening, early detection of symptoms, identification of stress factors, counseling and early referral to the psychiatrist, where necessary (5).

1.1.4 Tobacco Control Policy and Regulation

To curb tobacco consumption among adolescents in Malaysia, the Control of Tobacco Products Regulations 2004 (CTPR), sub-regulations 11 and 13 were enforced (6). The sub-regulations 11, 1(j) states that "No person shall smoke in any area in an educational institution or a higher educational institution". In addition, sub-regulation 13, states that "A person under 18 years who smokes, chews, buy or has in his possession any tobacco products, whether for his own consumption or not, commit an offence and shall on conviction be liable to a fine not exceeding one thousand ringgit".

1.1.5 National Nutrition Policy

The National Nutrition Policy is aimed at ensuring nutritional wellbeing of the population (7). Under this policy, the Healthy School Canteen Management Guide was published in 2011(8). This guideline serves as a reference for school canteen operators in providing a supportive environment for the sale of nutritious foods and beverages in schools. In 2012, the Guidelines for Healthy Eating in Schools was established to ensure obese and malnourished students are referred for appropriate management (9).

1.1.6 Policies Related to Social Issues

The National Child Policy (10) and the National Child Protection Policy (11) emphasize on the right of the child for survival, development, protection, rehabilitation and participation. These policies are in line with the Convention on the Rights of the Child (CRC) (12) and Child Act 2001(13). In line with the Child Act 2001, school authorities can refer students in need of protection to the Welfare Department who act as the "Protector" for the child.

In 2009, the National Policy on Social and Reproductive Health Education was introduced (14). In line with this policy, several modules have been developed to empower school children on sexual reproductive health knowledge and skills.

1.1.7 Other Related Activities

A national committee, the *Jawatankuasa 3K* (3K Committee) was established by the Ministry of Education in 2007 to focus on issues related to cleanliness, health and safety in schools (15). Subsequent to this, committees at various levels (states, district and school) were formed to monitor the activities within the scope of these committees.

Various circulars also exist towards ensuring the health, safety and wellbeing of the schoolchildren. To address issues like bullying, violence and drug abuse, *Surat Pekeliling Ikhtisas Bil.8/2010: Garis Panduan Mencegah dan Menangani Perbuatan Buli Dalam Kalangan Murid di Sekolah* (16) and *Surat Pekeliling Ikhtisas Bil.6/2000: Menangani Masalah Keselamatan, Dadah Dan Gengster* (17) were circulated.

Parent-Teacher Associations (PTA) also play a major role towards the success of programmes for the adolescents in school. In recognition of this, the Ministry of Education has established PTAs in all schools (18).

1.2 Research in Adolescent Health

A national study, the Youth Behaviour Risk Factor Surveillance (YBRFS) was conducted by the Institute for Health Behavioural Research in 2010. This study involved 4,088 students in Forms 1, 2 and 4 from 50 secondary schools (19). The Global Youth Tobacco Surveys were conducted in 2003 and 2009, to obtain information on tobacco consumption and its determinants (20, 21). Regional epidemiological oral health surveys for schoolchildren in Peninsular Malaysia were conducted in 1970 and 1988, while national level oral health surveys for schoolchildren were conducted in 1997 and 2007 (22, 23, 24, 25, 26). In addition to these national level studies, various smaller studies have been conducted to investigate risk behaviours and other health aspects among adolescents (27, 28).

2.0 METHODS

The 2012 Johor GSHS employed a two-stage cluster sampling design to produce a representative sample of students in Forms 1 to 5. The first-stage sampling frame consisted of all schools containing any of Forms 1 to 5. Schools were selected with probability proportional to school enrolment size. A total of 17 schools were selected to participate in the Johor GSHS. The second stage of sampling consisted of systematic random sampling of selected classrooms from each participating schools. All classrooms in each selected school were included in the sampling frame. All students in the sampled classrooms were eligible to participate in the GSHS.

A weighting factor was applied to each student record to adjust for non-response and for the varying probabilities of selection. The weight used for estimation is given by:

$$W = W1 * W2 * f1 * f2 * f3$$

- W1** = the inverse of the probability of selecting the school
- W2** = the inverse of the probability of selecting the classroom within the school
- f1** = a school-level non-response adjustment factor calculated by school size category (small, medium, large). The factor was calculated in terms of school enrollment instead of number of schools.
- f2** = a student-level non-response adjustment factor calculated by class
- f3** = a post-stratification adjustment factor calculated by class

The weighted results can be used to make important inferences about the priority health-risk behaviours and protective factors of all students in Forms 1 to 5.

For the 2012 Johor GSHS, 1,717 questionnaires were completed in 17 schools. The school response rate was 100%, while the students response rate was 86.5%. Overall, the response rate was 86.5%.

The data set was cleaned and edited for inconsistencies. Missing data were not statistically imputed. Software that takes into consideration the complex sample design was used to compute prevalence estimates and 95% confidence intervals. GSHS data is representative of all students attending Forms 1 to 5 in Johor.

Data collection was conducted from 23 February to 26 April 2012. Approvals from both the Ministry of Health Research and Ethics Committee and Ministry of Education Ethics Committee were obtained prior to the survey implementation. Following that, approval from relevant Ministry of Education officials at state, district and selected school levels were obtained. Parental consent forms were distributed to all students from selected classes and non-consented students were considered as non-response.

Survey procedures were designed to protect student privacy by allowing for anonymous and voluntary participation. The students completed the self-administered questionnaire during two classroom periods and recorded their responses directly on a computer-scannable answer sheet. A team of data collectors was formed and specially trained to conduct the GSHS. The data collectors included temporary staff and officials from the Institute for Public Health and Institute for Health Behavioural Research, Ministry of Health Malaysia.

The GSHS questionnaire contained 77 questions addressing the following topics:

- Alcohol consumption
- Dietary behaviours
- Drug use
- Hygiene (including oral hygiene)
- Mental health problems
- Physical activity
- Protective factors
- Sexual behaviours that contribute to HIV infection, other STIs, and unintended pregnancy
- Tobacco use
- Violence and unintentional injury

A bilingual questionnaire was developed based on the standard questionnaire used by the Global School-based Student Health Survey with additional local questions. A technical expert committee in the areas covered under GSHS was formed to finalize the questions.

2.1 Variable Definition

i. Alcohol Consumption

- Current alcohol use** : drinking at least one drink containing alcohol on one or more days during the past 30 days.
- A drink** : a glass of wine, tuak, lihing, bahar, ijuk or toddy; a bottle of beer; a small glass of liquor; or a mixed drink. Drinking alcohol does not include drinking a few sips of wine for religious purposes.
- Drunk** : Some signs of being really drunk are staggering when walking, not being able to speak right, and throwing up.

ii. Dietary Behavior

- At risk of becoming underweight** : body mass index below -2SD from median by age and sex.
- At risk of becoming overweight** : body mass index above +1SD from median by age and sex.
- At risk of becoming obese** : body mass index above +2SD by age and sex.
- Carbonated soft drinks** : includes Coca Cola, Sprite, and Pepsi (except diet soft drinks).
- Plain water** : includes mineral water, boiled water, or tap water.
- Fast food restaurant** : includes McDonalds, KFC and Pizza Hut.
- Breakfast** : a meal before 9.00 am.

iii. Drug Use

- Drug use** : includes taking of heroin, morphine, glue, methamphetamine, ecstasy, syabu, ice, ganja (except prescribed medicine).
- Ever used drug** : had used drug(s) at least once in their lifetime.
- Current use of/currently using drug** : had used drug(s) at least once in the past 30 days.

- iv. Physical Activity**
- Physical activity** : any activity that increases the heart rate and makes one breathe hard. Examples of physical activities include sports, playing with friends, walking to school, running, fast walking, biking or dancing.
- Physically active** : physically active for at least 60 minutes per day, for a minimum of five days per week (sum of all the time spent in any kind of physical activity each day).
- Sedentary behaviour** : spent at least three hours or more per day during a typical or usual day sitting and watching television, playing computer games, talking with friends, or doing other sitting activities.
- v. Protective Factors**
- Truancy** : missed class or school without permission for at least one day in the past 30 days.
- Peer support** : students in their school were kind and helpful most of the time or always during the past 30 days.
- Parental or guardian supervision** : parents or guardians had always or most of the time, checked to see if their homework was done in the past 30 days.
- Parental or guardian connectedness** : parents or guardians had always or most of the time, understood their problems and worries in the past 30 days.
- Parental or guardian bonding** : parents or guardians had always or most of the time, really knew what they were doing with their free time in the past 30 days.
- Parental or guardian respect for privacy** : parents or guardians had never or rarely went through their things without their approval in the past 30 days.
- vi. Sexual Behaviour**
- Sexual intercourse** : sexual acts of penetration of penis into vagina or anus.
- vii. Smoking**
- Current smoker** : smoke cigarette or other tobacco products on one or more days in the past 30 days.
- Other tobacco products** : tobacco products other than cigarettes including shisha/hookah, electronic cigarettes, snuff, chewing tobacco, pipes, curut, cigars, cigarillos or bidis.

viii. Violence and Unintentional Injury

- Physical attack** : occurs when one or more people hit or strike someone, or when one or more people hurt another person with a weapon (such as a stick, knife, or gun). It is not a physical attack when two individuals or students of about the same strength or power choose to fight each other.
- Physical fight** : occurs when two individuals or students of about the same strength or power choose to fight each other.
- Serious injury** : injury resulting in student missing at least one full day of usual activities (such as school, sports, or a job) or requiring treatment by a doctor or medical personnel.
- Bullying** : occurs when a student or group of students say or do bad and unpleasant things to another student. It is also bullying when a student is teased a lot in an unpleasant way or when a student is left out of things on purpose. It is not bullying when two students of about the same strength or power argue or fight or when teasing is done in a friendly and fun way.
- Physical abuse at home** : occurs when someone at home hit the student so hard that they left a mark or caused an injury.
- Verbal abuse at home** : occurs when someone at home says hurtful or insulting words to the student.

2.2. Objectives**2.2.1 General Objective**

To study the prevalence of health-related problems, risky behaviours and protective factors among secondary school students in Johor.

2.2.2 Specific Objectives

- i. To determine the prevalence of health-related problems such as poor personal hygiene, unhealthy dietary behaviours, physical inactivity, and mental health problems among students in Johor.
- ii. To identify the prevalence of risky behaviours in relation to alcohol consumption, tobacco use, illicit drug use, sexual behaviour and violence among students in Johor.
- iii. To assess the prevalence of protective factors against risky behaviours among students in Johor.

3.0 RESULTS

3.1 Socio-demographic Profile

Based on the Population and Housing Census of Malaysia in 2010, the population of Johor was about 3.3million (29). Adolescents between the ages of 10 to 20 years accounted for 18.6% of the total population. In 2012, there were 269,577 students aged 12 to 17 years in a total of 275 secondary schools under the Ministry of Education and the Ministry of Rural Development in Johor (30).

A total of 1,986 students from Form 1 to 5 were selected in Johor from 17 randomly selected secondary schools, with 1,717 students or 86.5% responding to our survey. Of the respondents, 50.4% were males (**Table1.2**). About 23.2% were from Remove Class/ Form 1, 19.9% from Form 2, 19.8% Form 3, 18.9% Form 4 and the remaining 18.2% from Form 5 (**Table1.3**). The ethnicity and parental marital status of the respondents are as shown in **Tables 1.4** and **1.5**.

3.2 Alcohol Consumption

Introduction

Worldwide, alcohol use causes 3% of deaths (1.8 million) annually, which is equal to 4% of the global disease burden. Across sub-regions of the world, the proportion of disease burden attributable to alcohol use is greatest in the Americas and Europe ranging from 8% to 18% of total burden for males and 2% to 4% of total burden for females. Besides the direct effects of intoxication and addiction, alcohol use causes about 20% to 30% of each of oesophageal cancer, liver disease, homicide and other intentional injuries, epilepsy, and motor vehicle accidents worldwide (31), and heavy alcohol use places one at greater risk for cardiovascular disease (32). In most countries, alcohol-related mortality is highest among 45 to 54 years, but the relationship between the age of initiation of alcohol use and the pattern of its use and abuse in adulthood makes the study of alcohol consumption among adolescents important (33). Intentional and unintentional injuries are far more common among youth and young adults. Unintentional injuries are the leading cause of death among 15 to 25 years and many of these injuries are related to alcohol use (34). Young people who drink are more likely to use tobacco and other drugs and engage in risky sexual behaviour, than those who do not drink (35, 36). Problems with alcohol can impair adolescents' psychological development and influence both the school environment and leisure time negatively (37).

Findings

The prevalence of current alcohol use among the students was 9.5% (95% CI: 6.12-14.33) (**Table 2.1.1**). Among students who ever consumed alcohol, 61.0% (95% CI: 51.84-69.51) had their first drink of alcohol before the age of 14 years (**Table 2.2.1**). Among the current drinkers, 31.6% (95% CI: 25.97-37.89) had drunk two or more drinks per day (**Table 2.3.1**). About 6.8% (95% CI: 4.34-10.40) of the students reported drunkenness (**Table 2.4.1**). Overall, 2.8% (95% CI: 1.71-4.49) of the students got into trouble with their family and friends, missed class, or got into fights one or more times as a result of drinking alcohol (**Table 2.5.1**). Among current drinkers, 18.1% (95% CI: 11.44-27.31) usually obtained alcohol drinks from their friends. They had also obtained alcohol drinks from their family [41.0% (95% CI: 34.74-47.49)] and purchase from shops [25.3% (95% CI: 19.03-32.78)] (**Table 2.61**).

3.3 Dietary Behaviours

Introduction

Overweight in adolescence is associated with hyperlipidemia, raised blood pressure (hypertension), abnormal glucose tolerance, and adverse psychological and social consequences (38). These problems may persist into adulthood and increase the risks for coronary heart disease, diabetes, gallbladder disease, certain types of cancer, and osteoarthritis of the weight-bearing joints in later life. Nutritional deficiencies as a result of food insecurity (protein-energy malnutrition, iron, Vitamin A, and iodine deficiency) affect school participation and learning (39). Fruits and vegetables are good sources of complex carbohydrates, vitamins, minerals, and other substances which are important for good health. Dietary patterns that include higher intakes of fruits and vegetables are associated with several health benefits, including a decreased risk for some types of cancer (40).

Findings

Overall, 10.6% (95% CI: 9.46-11.80) of the students were at risk of becoming underweight. Males [13.2% (95% CI: 11.43-15.26)] were significantly higher than females [7.9% (95% CI: 6.25-10.02)] to be at risk of becoming underweight (**Table 3.1**). About 22.2% (95% CI: 20.48-24.08) were at risk of becoming overweight (**Table 3.2**) while, 9.2% (95% CI: 7.31-11.50) were at risk of becoming obese (**Table 3.3**). In the past 30 days, 5.7% (95% CI: 4.57-6.99) of the students reported being hungry most of the time or always because there was not enough food in their home (**Table 3.4**). About 41.0% (95% CI: 36.73-45.36) of the students reported consuming fruits at least twice daily (**Table 3.5.1**) while, 32.3% (95% CI: 29.17-35.59) reported consuming vegetables at least three times daily (**Table 3.6.1**). A total of 29.8% (95% CI: 26.51-33.37) reported consuming both fruits and vegetables at least five times daily (**Table 3.6.2**). Generally, 31.4% (95% CI: 26.09-37.16) of students reported consuming soft drinks at least once daily (**Table 3.7.1**). A total of 7.3% (95% CI: 5.05-10.40) reported consumed food from a fast food restaurant at least three days in the past seven days (**Table 3.8.1**). About 56.1% (95% CI: 52.29-59.86) reported consuming plain water at least five times daily in the past 30 days (**Table 3.9**). Only 18.5% (95% CI: 14.54-23.32) reported had breakfast daily in the last seven days (**Table 3.10**). About 31.9% (95% CI: 29.90-33.89) of the students perceived they were slightly or very overweight. Females [37.6% (95% CI: 34.56-40.81)] were significantly more likely than males [26.3% (95% CI: 23.27-29.59)] to perceive their weight as slightly or very overweight (**Table 3.11.1**). Overall, 36.2% (95% CI: 32.59-40.03) reported trying to lose weight (**Table 3.12.1**). About 72.81% (95% CI: 69.63-75.78) reported attempting to lose, gain or maintain at the same weight (**Table 3.12.2**).

3.4 Drug Use

Introduction

Globally, it is estimated that in 2010 between 153 million and 300 million people aged 15-64 (3.4-6.6 per cent of the world's population in that age group) had used an illicit substance at least once in the previous year. With estimated annual prevalence of cannabis use in 2010 ranging from 2.6 to 5 per cent of the adult population (between 119 million and 224 million estimated users aged 15-64), cannabis remains the world's most widely used illicit substance. In terms of prevalence, amphetamine-type stimulants (ATS) (excluding "ecstasy") remain second only to cannabis, with an estimated prevalence of 0.3-1.2 per cent in 2010 (between 14.3 million and 52.5 million users) (41).

Findings

Generally, 98.1% (95% CI: 95.62-99.15) of the students reported that they never use drug during their lifetime (**Table 4.1.1**). A total of 1.9% (95% CI: 0.85-4.38) admitted of ever used drugs and among them 89.2% (95% CI: 56.86-98.12) had used it for the first time before the age of 14 years (**Table 4.2.1**). The prevalence of current drug users was 1.8% (95% CI: 0.70-4.50) (**Table 4.3.1**).

3.5 Hygiene (Including Oral Hygiene)

Introduction

Dental caries affect between 60-90% of children in developing countries and is the most prevalent oral disease among children in several Asian and Latin American countries. In Africa, the incidence of dental caries is expected to rise drastically in the near future due to increased sugar consumption and inadequate fluoride exposure (42). In Malaysia, findings from the recent epidemiological oral health survey of schoolchildren in 2007 showed that 80.4% of 12 years schoolchildren and 89.4% of 16 years children have unhealthy periodontal conditions (25, 26). In addition to causing pain and discomfort, poor oral health can affect children's ability to communicate and learn. More than 50 million school hours are lost annually because of oral health problems (43). In both developed and developing countries, many children do not have access to water fluoridation or professional dental care. Daily tooth cleaning or brushing with a fluoridated toothpaste can help prevent dental caries and periodontal disease (44). Diarrhoeal diseases kill nearly 2 million children every year. Hygiene education and the promotion of hand washing can reduce the number of diarrhoeal cases by 45% (45). About 400 million school aged children are infected with worms worldwide. These parasites consume nutrients from children they infect, cause abdominal pain and malfunction and can impair learning by slowing cognitive development (46).

Findings

Only 3.6% (95% CI: 2.47-5.15) of the students had brushed their teeth less than once daily in the past 30 days. A high prevalence of students reported brushing their teeth at least twice daily [85.6% (95% CI: 82.92-87.93)] with significantly more females [89.6% (95% CI: 86.58-91.98)] than males [81.7% (95% CI: 78.20-84.67)] reported this (**Table 5.1.1**). Only 54.1% (95% CI: 49.26-58.92) reported use of fluoridated toothpaste and 29.3% (95% CI: 25.90-32.97) did not know whether their toothpaste contain fluoride (**Table 5.2**). About 8.2% (95% CI: 6.09-10.85) had missed class due to a toothache in the past 12 months (**Table 5.3**). Only 38.1% (95% CI: 35.05-41.29) reported that they had their last dental visit in the past 12 months (**Table 5.4**). Overall, 17.6% (95% CI: 15.13-20.44) claimed that they had avoided smiling or laughing due to the appearance of their teeth (**Table 5.5**). In the past 30 days, 6.8% (95% CI: 4.13-10.97) of the students never or rarely wash their hands before eating (**Table 5.6**). About 6.3% (95% CI: 4.72-8.45) reported never or rarely wash their hands after using the toilet (**Table 5.7**). A total of 15.2% (95% CI: 11.70-19.61) never or rarely use soap when washing their hands (**Table 5.8**).

3.6 Mental Health Problems

Introduction

Worldwide, approximately 20% of children and adolescents suffer from a disabling mental illness (47). Anxiety disorders, depression and other mood disorders, behavioural and cognitive disorders are among the most common mental health problems among adolescents (48). Half of all life time cases of mental disorders start by the age of 14 years. In Malaysia, the National Health and Morbidity Survey 2011 reported that prevalence of mental health problems among children and adolescent less than 16 years was 20.0% as compared to 19.4% in 2006 (49, 50). In every country and culture, there are children and adolescents who struggle with mental health problems. These young people are at high risk of delinquent behaviour, substance abuse, school failure, violent and criminal activities. Mental health problems among schoolchildren may lead to mental illness in adulthood. Suicide is the third leading cause of death among adolescents and worldwide, about 4 million adolescents attempt suicide each year (51, 52).

Findings

In the past 12 months, 7.1% (95% CI: 5.21-9.73) of the students had felt lonely most of the time or always (**Table 6.1**). Overall, 6.4% (95% CI: 5.51-7.46) were unable to sleep at night due to worry most of the time or always (**Table 6.2**). The prevalence of suicidal ideation was 11.3% (95% CI: 7.83-16.03) (**Table 6.3**). About 8.1% (95% CI: 5.94-10.99) had suicidal plan (**Table 6.4**) and 9.7% (95% CI: 7.05-13.25) had reported attempted suicide (**Table 6.5**). Overall, 3.9% (95% CI: 2.68-5.54) of the students had no close friends at all (**Table 6.6**).

3.7 Physical Activity

Introduction

Participating in adequate physical activity throughout the life span and maintaining normal weight are the most effective ways of preventing many chronic diseases, including cardiovascular disease and diabetes (53). The prevalence of type 2 diabetes is increasing globally and now is occurring during adolescence and childhood (54). Participating in adequate physical activity also helps build and maintain healthy bones and muscles, control weight, reduce blood pressure, ensure a healthy blood profile, reduce fat, and promote psychological wellbeing (55). It is estimated that about 60% of the world's population is not get enough physical activity. Patterns of physical activity acquired during childhood and adolescence are more likely to be maintained throughout the life span, thus sedentary behaviour adopted at a young age is likely to persist (56).

Findings

The prevalence of being physically active in the past seven days was 13.2% (95% CI: 11.13-15.67) and this was significantly higher among males [19.3% (95% CI: 17.10-21.66)] compared to females [7.2% (95% CI: 5.24-9.69)] (**Table 7.1**). Overall, 19.9% (95% CI: 16.64-23.70) had been physically active for at least five days in the past seven days with significantly more males [28.6% (95% CI: 24.96-32.57)] than females [11.1% (95% CI: 8.50-14.28)] with this level of activity (**Table 7.1.1**). About 47.1% (95% CI: 37.30-57.10) of students did not walk or ride a bicycle to or from school in the past seven days (**Table 7.2**). Overall, 49.2% (95% CI: 46.39-52.04) had engaged in sedentary activities (**Table 7.3.1**).

3.8 Protective Factors

Introduction

Adolescents who live in a social environment which provides meaningful relationships, encourages self-expression and also provides structure and boundaries, are less likely to initiate sex at a young age, less likely to experience depression, and less likely to use substances (57). Being liked and accepted by peers is crucial to young people's health development, and those who are not socially integrated are far more likely to exhibit difficulties with their physical and emotional health. Isolation from peers in adolescence can lead to feelings of loneliness and psychological symptoms. Interaction with friends tends to improve social skills and strengthen the ability to cope with stressful events (58). For most adolescents, school is the most important setting outside of the family. Adolescents who have a positive relationship with teachers and who have positive attitudes towards school are less likely to initiate sexual activity early, less likely to use substances, and less likely to experience depression. Parental bonding and connection are associated with lower levels of depression and suicidal ideation, alcohol use, sexual risk behaviours and violence (59).

Findings

The prevalence of truancy among the students in the past 30 days was 28.8% (95% CI: 24.33-33.70) (**Table 8.1**). Overall, 37.9% (95% CI: 31.71-44.58) reported of having peer support in the past 30 days, with a significantly higher prevalence among females [46.1% (95%: 38.32-54.00)] than males [30.0% (95%: 23.47-37.53)] (**Table 8.2**). Parental or guardian supervision was reported by 14.0% (95% CI: 11.85-16.47) of the students (**Table 8.3**) while, parental or guardian connectedness was reported by 30.3% (95% CI: 25.19-35.99) (**Table 8.4**). About 41.8% (95% CI: 36.62-47.15) reported of parental or guardian bonding (**Table 8.5**) and 72.6% (95% CI: 68.76-76.16) of the students reported having parental or guardian respect for privacy (**Table 8.6**).

3.9 Sexual Behaviours that Contribute to HIV Infection, Other STIs, and Unintended Pregnancy

Introduction

AIDS has killed more than 25 million people since 1981. As of 2011, an estimated 34 million people were living with HIV (60, 61). Young people between the ages of 15 and 24 years old are the most at risk group and accounted for 40% of those newly infected with HIV in 2009 (61, 62). Every day, 2,400 young people get infected with more than 5 million young people living with HIV/AIDS globally. Young people need to know ways of preventing sexual transmission of the virus such as through the usage of condom. Worldwide, about 16 million women between 15-19 years old give birth each year, and this is equivalent to 11% of all births (62). UNICEF reported 10-40% of young unmarried girls has had unintended pregnancies (62). Births to unmarried adolescent mothers are far more likely to be unintended and are more likely to end in induced abortion; and about 2.5 million adolescents have unsafe abortion every year (63). Adolescents faced a higher risk of complications and death as a result of pregnancy than older women.

Findings

The prevalence of students who ever had sex was 10.6% (95% CI: 5.96-18.23) (**Table 9.1**). Among those who ever had sex, 75.0% (95% CI: 63.16-83.97) of them had sex for the first time before the age of 14 years (**Table 9.2.1**).

3.10 Tobacco Use

Introduction

About 1.1 billion people worldwide smoke and the number of smokers continue to increase. Among these, about 84% live in developing and transitional economy countries. Currently 5 million people die each year from tobacco consumption, the second leading cause of death worldwide. If present consumption patterns continue, it is estimated that deaths from tobacco consumption will reach 10 million people per year by 2020 (64). The overwhelming majority of smokers begin tobacco use before they reach adulthood. Among those young people who smoke, nearly one quarter smoked their first cigarette before they reached the age of ten. Smokers have markedly increased risks of multiple cancers, particularly lung cancer, and are at far greater risk of heart disease, strokes, emphysema, and many other fatal and non-fatal diseases. If they chew tobacco, they are at risk for cancer of the lip, tongue and mouth. Children are at particular risk from adults' smoking. Adverse health effects include pneumonia and bronchitis, coughing and wheezing, worsening of asthma, middle ear disease, and possibly neuro-behavioural impairment and cardiovascular disease in adulthood. Many studies show that parental smoking is associated with higher youth smoking in youth (65).

Findings

The prevalence of current cigarettes smokers was 10.2% (95% CI: 7.67-13.42) with significantly more males [18.5% (95% CI: 12.98-22.57)] than females [1.9% (95% CI: 1.44-2.54)] reported this (**Table 10.1.1**). Among those who ever smoked cigarettes, 74.3% (95% CI: 65.20-81.67) had first tried a cigarette before the age of 14 years (**Table 10.2.1**). Overall, 6.0% (95% CI: 4.42-8.03) currently smoked tobacco products other than cigarettes (**Table 10.3.1**). The prevalence of using shisha/hookah in the past 30 days was 3.4% (95% CI: 2.21-5.15) (**Table 10.4**). Among those who smoked cigarettes in the past 12 months, 88.3% (95% CI: 81.39-92.81) had tried to stop smoking (**Table 10.5**). A total of 37.0% (95% CI: 30.42-44.10) reported having been exposed to people who smoked in their presence in the past seven days (**Table 10.6.1**). About 38.8% (95% CI: 35.11-42.71) had parents or guardians who used any form of tobacco including cigarettes (**Table 10.7**). Majority of the students [86.6% (95% CI: 83.53-89.22)] reported they would definitely not smoke a cigarette in the next 12 months and it was significantly higher among females [94.7% (95% CI: 91.89-96.61)] than males [78.6% (95% CI: 72.83-83.38)] (**Table 10.8**). Additionally, majority [85.8% (95% CI: 83.21-88.11)] reported they would definitely not smoke a cigarette if one of their best friends offered them cigarettes and this was significantly higher among females [94.9% (95% CI: 92.61-96.57)] than males [76.8% (95% CI: 72.69-80.39)] (**Table 10.9**). Among the non-smokers, 9.3% (95% CI: 7.58-11.31) were susceptible to smoking and this was significantly higher in males [13.3% (95% CI: 11.73-15.05)] than females [6.0% (95% CI: 3.68-9.51)] (**Table 10.10**).

3.11 Violence and Unintentional Injury

Introduction

Unintentional injuries is a major cause of death and disability among young children (66). Each year, about 875,000 children under the age of 18 years die from injuries and 10 to 30 million have their lives affected by injury. Injury is highly associated with age, and gender, in which males aged 10-14 years have 60% higher injury death rates than females. Teenagers aged 15-19 years have higher rates than those aged 10-14 years (64 compared to 29 per 100,000). Many unintentional injuries lead to permanent disability and brain damage, depression, substance abuse, suicide attempts, and the adoption of health risk behaviours. Victims of bullying have increased stress and a reduced ability to concentrate. Additionally, they are at increased risk for substance abuse, aggressive behavior and suicide attempts (67).

Findings

In the past 12 months, 29.1% (95% CI: 24.64-34.08) of the students had been physically attacked (**Table 11.1.1**). Overall, 28.1% (95% CI: 24.27-32.32) had been involved in a physical fight with significantly more males [34.0% (95% CI: 28.81-39.61)] than females [22.2% (95% CI: 18.97-25.88)] reporting this (**Table 11.2.1**). About 35.5% (95% CI: 30.65-40.61) of the students had been seriously injured (**Table 11.3.1**). Among those who had been seriously injured, the two most common injuries were "a cut or stab wound" [24.5% (95% CI: 19.55-30.20)] and "a broken bone or dislocated joint" [23.0% (95% CI: 18.43-28.22)] (**Table 11.4**). The two most common causes of serious injury were fall [33.0% (95% CI: 28.63- 37.70)] and motor vehicle accidents [22.06% (95% CI: 16.60-28.70)] (**Table 11.5**). In the past 30 days, 35.5% (95% CI: 30.65-40.61) of the students had been bullied (**Table 11.6.1**). Reportedly, the two most common forms of bullying were "made fun of because of body or face looks" [23.1% (95% CI: 17.37-29.95)] and "made fun of with sexual jokes, comments or gestures" [17.5% (95% CI: 11.36-25.87)] (**Table 11.7**). About 13.3% (95% CI: 10.36-16.88) of the students had been abused physically (**Table 11.8.1**) and 41.2% (95% CI: 36.73-45.87) had been abused verbally at home (**Table 11.9.1**).

4.0 DISCUSSION

The prevalence of current alcohol use in Johor was higher than the national prevalence (9.5% vs 8.9%). As in other states, more than half of the current drinkers in Johor had taken their first drink before the age of 14 years and the prevalence was lower than the national prevalence (61.0% vs 63.5%). The prevalence of high alcohol intake (drank at least two alcoholic drinks on a typical day alcohol was consumed) among current drinkers was higher compared to the national prevalence (31.6% vs 26.5%). As in almost all the states, the most common source of alcoholic drink in Johor is the family. About four in ten (41.0%) of current drinkers obtained their alcoholic drinks from their families and this prevalence was higher than the national figure (34.6%). The prevalence of drunkenness was found to be higher than the national prevalence (6.8% vs 6.3%). A higher prevalence of students had ever got into trouble with their family or friends, missed school or got into fights due to alcohol intake compared to the national prevalence (2.8% vs 2.6%).

A higher prevalence of students are at risk of becoming underweight compared to the national figure (10.6% vs 8.8%), and this prevalence was observed to be the highest in the country. The prevalence for being at risk of overweight and obesity were each observed to be slightly lower compared to the national prevalence (22.2% vs 22.8% and 9.2% vs 9.5%, respectively). Consumption of fruit and vegetable was comparable to the national level (29.8% vs 28.7%). The consumption of soft drinks and fast foods were each higher than the national prevalence (31.4% vs 29.4% and 7.3% vs 6.0%, respectively). Notably, the prevalence of fast food consumption was the highest among all states. The prevalence of drinking plain water and taking breakfast everyday, were each comparable to the national figures (56.1% vs 54.8% and 18.5% vs 19.2%, respectively).

Reported ever used drug in Johor was higher compared to the national prevalence (1.9% vs 1.7%) with majority of them (89.2%) first used drugs before the age of 14 years. The prevalence of currently using drug was higher compared to the national prevalence (1.8% vs 1.5%).

In comparison with the national prevalence, there was a slightly higher prevalence of students who never or rarely wash their hands before eating in the past 30 days (6.8% vs 5.0%). A slightly higher prevalence of students did not brush their teeth daily during the past 30 days compared to the national prevalence (3.6% vs 2.7%). Majority of students (85.6%) brushed their teeth at least twice daily, as observed in other states.

A higher prevalence of students could not sleep at night due to worry compared to the national prevalence (6.4% vs 5.4%). About 7.1% of students reported feeling lonely most of the time in the past 12 months and this is lower than the national prevalence (8.1%). More students claimed of not having a close friend compared to the national prevalence (3.9% vs 3.1%). The prevalence of suicidal ideation, plan and attempts were higher compared to the national prevalence (11.3% vs 7.9%, 8.1% vs 6.4% and 9.7% vs 6.8%, respectively). Among all states, Johor has the highest prevalence of suicidal ideation and attempt.

The prevalence of being physically active (spent at least 60 minutes daily on five or more days a week) was lower than the national prevalence (19.9% vs 22.7%). This figure was the lowest in the country. Additionally, the prevalence of sedentary behaviour was higher than the national prevalence (49.2% vs 47.3%).

In Johor, the prevalence of truancy was lower compared to the national prevalence (28.8% vs 30.9%). The prevalence of peer support was lower compared to the national level (37.9% vs 44.3%). Among all states, this figure was the lowest. Parental or guardian supervision, connectedness, bonding and respect for privacy were each comparable to the national figures (14.0% vs 14.2%, 30.3% vs 31.5%, 41.8% vs 43.1%, and 72.6% vs 74.0%, respectively).

The prevalence of reported ever had sex in Johor was higher compared to the national prevalence (10.6% vs 8.3%).

The prevalence of currently smoke cigarettes was lower compared to the national prevalence (10.2% vs 11.5%), while currently smoke other tobacco products was higher than the national figure (6.0% vs 5.5%). The prevalence of exposure to secondhand smoke from people smoking in their presence, was lower compared to the national figure (37.0% vs 41.6%), while reported parents or guardians who used any form of tobacco was comparable to the national prevalence (38.8% vs 40.2%).

Violence behaviours among students in Johor was noted to be comparable to national levels, with the exception of physical abuse which was higher (13.3% vs 11.1%).

5.0 CONCLUSION

In Johor, the prevalence of suicidal ideation and attempt were both much higher than the national prevalence. Additionally, other areas of concern were high consumption of fast food and physical inactivity. Notably, risky behaviours such as alcohol consumption, drug use and 'ever had sex' were also higher than the national figures.

6.0 RECOMMENDATIONS

In view of the findings which were highlighted above, the recommendations below are targeted at students and the environment surrounding them. Overall, there is a need to upscale the empowerment of students through enhancing appropriate knowledge and skills against risky behaviours. Additionally, there is also a need to strengthen the support for students concerned through multiagency collaborative approaches. Thus, the following recommendations are made:

- i. Psychosocial factors that contribute to mental health problems particularly suicidal behaviors need to be further explored.
- ii. There is a need to increase health awareness among students on the detrimental effects of alcohol consumption and the higher probability of alcohol addiction in later life if they start drinking during their adolescent years.
- iii. Sexual reproductive health education at homes, school and community should be strengthened.
- iv. Use of creative and innovative approaches such as engaging social media to promote healthy life styles particularly on increasing physical activity and reducing consumption of unhealthy fast food, need to be explored.
- v. Further strengthening, regulation and enforcement of the Malaysia Food Act Regulation 1985 which prohibits the sales of alcoholic beverages to those below 18 years, is called for. There is a need for minimum legal age (MLA) of alcohol consumption to be enacted.
- vi. More emphasis need to be given to inculcate caring attitudes among students towards a friendly and supportive school environment.
- vii. Existing intervention measures in the school environment such as the *Doktor Muda* Programme and the empowerment of counsellors in detection of risky behaviours, appropriate counselling and referral to relevant agencies are to be given further emphasis.
- viii. More effort is needed to strengthen parenting skills through government, private, NGOs and community platforms.

APPENDIX 2 : MEMBERS OF STEERING COMMITTEE NHMS 2011-2014

1. Director General of Health
2. Deputy Director General of Health (Public Health)
3. Deputy Director General of Health (Medical)
4. Deputy Director General of Health (Research & Technical Support)
5. Senior Director Pharmacy
6. Principal Director, Oral Health
7. Director, Planning & Development Division
8. Director, Disease Control Division
9. Director, Medical Development Division
10. Director, Health Education Division
11. State Health Department; YB. Dato' Dr Hajah Nordiyanah Haji Hassan
12. Director, Institute for Public Health
13. Dean of Medical Faculty, University of Malaya
14. Dean of Medical Faculty, National University of Malaysia
15. Principle Investigator, NHMS

APPENDIX 3 : TERMS OF REFERENCE OF STEERING COMMITTEE

1. To approve the objectives and scopes of NHMS 2011-2014.
2. To facilitate inter and intra sectoral collaboration.
3. To monitor the implementation of the NHMS 2011-2014.
4. To review recommendations of the Advisory Committee.
5. To facilitate the utilisation of the NHMS 2011-2014 findings.

APPENDIX 4 : MEMBERS OF ADVISORY COMMITTEE NHMS 2012

1. Dr Zainal Ariffin Omar
Deputy Director
Disease Control Division
2. Puan Rokiah Don
Director
Food Division
3. Dr Yaw Siew Lian
Deputy Director
Oral Health Division
4. Dr Nordin Salleh
Deputy Director
Health Policy and Planning Unit
5. Dr Kamaliah Mohd Noh
Deputy Director (Primer)
Family Health Development Division
6. Dr Anita Sulaiman
Senior Principal Assistant Director
Disease Control Division
7. Dr Rosnah Ramly
Senior Principal Assistant Director
Violence & Injury Prevention Unit
Disease Control Division

APPENDIX 6 : MEMBERS OF CENTRAL COORDINATING COMMITTEE

1. Dr Hj Tahir Aris, Director of Institute for Public Health
2. Dr Jasvinder Kaur Pritam Singh, Deputy Director (Research and Technical)
3. Dr Noor Ani Ahmad, NHMS Coordinator cum Central Supervisor for W.P. Kuala Lumpur/
W.P. Putrajaya/ Selangor
4. Dr Hj Mohd Azahadi Omar, Head of Data Processing Section
5. Dr Muhammad Fadhli Mohd Yusoff, Head of Data Management Section
6. Dr Nalachakravathy Odhaya Kumar, Central Supervisor for Southern Region
7. Mr Mohammad Zabri Johari, Principal Investigator
8. Mr Ridhuan Mhd Dan, Central Supervisor for Northern Region
9. Mr Abdul Aziz Che Man
10. Mr Hj Rosnani Abd Hamid, Central Supervisor for East Coast Region
11. Ms Suhaila Abd Ghaffar
12. Ms Norazlina Muhamad
13. Mr Muhamad Firdaus Ali @ Ghazali
14. Mr Haszreen Shariff
15. Mr Bahtiar Effendy Khasdir

APPENDIX 7 : MEMBERS OF RESEARCH TEAMS NHMS 2012

Dietary Behaviours

1. Mr Ahmad Ali Zainuddin
2. Ms Rashidah Ambak
3. Mr Azli Baharudin @ Shahrudin
4. Ms Syafnaz Mohd Sallehuddin
5. Ms Suhaila Abd Ghaffar
6. Mr Muhamad Firdaus Ali @ Ghazali

Hygiene (Including Oral Hygiene)

1. Dr Yaw Siew Lian
2. Dr Nurrul Ashikin Abdullah
3. Dr Khairiyah Abd Muttalib
4. Ms Riyanti Saari
5. Ms Balkish Mahadir Naidu
6. Ms Yeo Pei Sien

Physical Activity

1. Mr Lim Kuang Kuay
2. Dr Hj Mohd Azahadi Omar
3. Ms Teh Chien Huey
4. Dr Nalachakravathy Odhaya Kumar
5. Dr Ong Shiau Ying
6. Mr Abu Bakar Rahman
7. Mr Hasnol Hadi Asim
8. Mr Haszreen Shariff

Protective Factors

1. Ms Norzawati Yoep
2. Dr Nik Rubiah Nik Abd Rashid
3. Ms Nor Safiza Mohamad Nor
4. Ms Faizah Paiwai
5. Ms Leni Tupang
6. Mr Afiq Awang

Tobacco Use

1. Ms Helen Tee Guat Hiong
2. Dr Ahmad Shahrul Nizam Isha
3. Dr Gurpreet Kaur
4. Dr Zariah Md Zain
5. Mr Lim Kuang Hock
6. Ms Chan Ying Ying
7. Mr Mohd Amirudin Razali

Mental Health Problems

1. Dr Noor Ani Ahmad
2. Dr Azriman Rosman
3. Dr Lai Wai Yee
4. Ms Cheong Siew Man
5. Dr Nurashikin Ibrahim
6. Datin Dr Fauziah Mohamed
7. Dr Jasvinder Kaur Pritam Singh
8. Dr Siti Zuraidah Mahmud

Drug Use

1. Dr Muhammad Fadhli Mohd Yusof
2. Ms Norhafizah Sahril
3. Mr Mohamad Naim Mohd Rasidi
4. Dr Rozanim Kamarudin
5. Ms Norazlina Muhamad

Violence and Unintentional Injury

1. Dr Rosnah Ramly
2. Dr Diana Mahat
3. Mr Mohd Hazrin Hasim @ Hashim
4. Ms Nor Shahidah Abd Aziz
5. Dr Siti Fatimah Mat Hussin

Alcohol Consumption

1. Mr Mohd Hatta Abd Mutalip
2. Dr Rozanim Kamarudin
3. Ms Hamizatul Akmal Abd Hamid
4. Mr Mohd Hazrin Hasim @ Hashim
5. Dr Mala A. Manickam

Sexual Behaviours that Contribute to HIV Infection, Other STIs, and Unintended Pregnancy

1. Dr Noor Ani Ahmad
2. Dr Nik Rubiah Nik Abd Rashid
3. Dr Anita Sulaiman
4. Ms Norazilah Mohd Roslan
5. Ms Umami Nadiah Bt Yusoff
6. Ms Hasimah Ismail
7. Mr Bahtiar Effendy Khasdir

APPENDIX 8 : MEMBERS OF DATA COLLECTION TEAMS

PERLIS

Liaison Officer

Ms Sharifah Salbiah Sareh Hashim

Field Supervisor

Mr Abu Bakar Rahman

Nutritionist

1. Mr Nurbairi Adha Yusof
2. Ms Nurhazwani Roslan

Drivers

1. Mr Azfarizul Abdul Majid
2. Mr Wan Mohd Hafizan Che Mat
3. Mr Zaili Zainal Ariffin

Research Assistants

1. Ms Norawanis Abdul Razak
2. Ms Nor Fatehah Razain
3. Ms Wan Mastura Megat
4. Ms Faezah Azmi
5. Mr Mohd Firdaus Ramli
6. Ms Nur Shazlin Sharuddin
7. Ms Aznita Shuaib
8. Ms Mastura Dahalan
9. Ms Nurul Fitriah Che Lah
10. Ms Nur Hazwani Mohd Fadzil

KEDAH

Liaison Officer

Ms Rohida Sallehuddin

Field Supervisor

Mr Azli Baharudin

Nutritionist

1. Ms Nor Hasniza Yaacob
2. Mr Khairul Azhar Abdullah
3. Ms Nur Wahidda Azmi
4. Tan Yen Nee
5. Ms Suriana Johari
6. Ms Norzaity Emeeza Zahid
7. Ms Norazlina Mohd Noh
8. Ms Sulhariza Husni Zain
9. Ms Nur Ilhami Mat Isa

Drivers

1. Mr Amir Md Noor
2. Mr Ahmad Aminuddin Abdullah
3. Mr Mohd Zalani Ishak
4. Mr Mohd Irwan Mohd Daud
5. Mr Zaini Ramli
6. Mr Ridzuan Ahmad
7. Mr Pathuddin Mohamad
8. Mr Mat Isa Zakaria

Research Assistants

1. Ms Anis Syafiqah Man
2. Ms Nurul Izzati Yahya
3. Ms Zamilah Hasniah Ab Hamid
4. Ms Siti Nurhayati Ismail
5. Ms Ku Nur Eina Shaheeda Ku Abdul Rahman
6. Mr Abdullah Hadi Ibni Akil
7. Ms Norlelawati Hashim
8. Ms Noor Kartini Ahmad
9. Ms Mr Muhammad Shahir M. Ali
10. Ms Armiza Shuaib

PULAU PINANG**Liaison Officer**

Ms Marshita Mohamed

Field Supervisor

Ms Norhafizah Sahril

Nutritionist

1. Mr Mohd Faizal Ibrahim
2. Foo Ming Ming
3. Ms Umi Kalsom Abd. Majid
4. Mr Shahrulnaz Norhazli Nazri
5. Ms Siti Norazlin Mohd Ngadikin
6. Mr Mohd Yusri Noordin
7. Ms Jamaatul Firdaus Halim

Drivers

1. Mr Mohd Jamil Bidin
2. Mr Jefre Ahmad

Research Assistants

1. Mr Muhammad Hakim Abdul Jalil
2. Mr Mohd Rezuan Hamzah
3. Ms Siti Nuraina Mat Salam
4. Ms Norafsiah Yusof
5. Ms Nor Fadzilah Ahmad Sukhari
6. Mr Mohammad Hamizi Mohammad Muzamil

7. Mr Muhammad Hilmi Abdul Razak
8. Ms Wan Nur Ain Wan Anuar
9. Mr Mohd Firdaus Wahid
10. Ms Ummu Hanik Abdul Hamid

PERAK

Liaison Officer

Mr Yahya Ahmad

Field Supervisor

Ms Norzawati Yoep

Nutritionist

1. Ms Azira Abdullah
2. Mr Edmund Ross William Hunt
3. Sin Yong Wai
4. Ms Aniza Omar
5. Ms Nurul Husna Mohd Patel
6. Ms Zuwariah Abd Talib
7. Ms Rosa Erainie Baldura Baharudin

Drivers

1. Mr Fazli Mahdi
2. Mr Samsuddin Abdul Karim

Research Assistants

1. Ms Zaiton Ahmad
2. Mr Muhamad Mursyid Ismail
3. Ms Hadira Othman
4. Ms Puteri Faida Alya Zainuddin
5. Mr Firdaus Alias
6. Ms Dian Diyana Mohamad Asroun
7. Ms Noor Fazzilah Saidon
8. Mr Abdul Rashid Ali Kamal
9. Ms Noor Fadhilah Nordin
10. Mr Mohd Hakimi Hj Hussain

SELANGOR**Liaison Officer**

Ms Jamilah Ahmad

Field Supervisor

Ms Chan Ying Ying

Nutritionist

1. Ms Norazaidah Yusof
2. Ms Acmarina Nur Salwani Muhammad Dalib

PENGENALAN

INTRODUCTION

Kementerian Kesihatan Malaysia dengan kerjasama Kementerian Pelajaran Malaysia dan Pertubuhan Kesihatan Sedunia (WHO) sedang menjalankan tinjauan yang berkaitan kesihatan remaja. Survei ini adalah berkenaan dengan kesihatan anda dan tindakan yang anda ambil yang memberi kesan kepada kesihatan anda.

The Ministry of Health Malaysia with the cooperation of the Ministry of Education Malaysia and the World Health Organization (WHO) is conducting a survey on adolescent health. This survey is about your health and the things that you do that may affect your health.

Terima kasih kerana bersetuju untuk menyertai tinjauan ini. Tiada jawapan yang **BETUL** atau **SALAH**. **Markah peperiksaan anda tidak akan terjejas** sekiranya anda menjawab atau tidak menjawab soalan dalam survei ini. Setiap jawapan yang anda berikan boleh membantu memantapkan program kesihatan untuk remaja. Oleh itu, sila jawab dengan ikhlas dan tepat.

Thank you for agreeing to participate in this survey. There are no CORRECT or WRONG answers. None of your grades or marks will be affected whether or not you answer the questions. Each answer that you provide will help in the improvisation of health programs for adolescents. Therefore, please answer as honestly and accurately as possible.

Segala maklumat individu yang diberikan adalah **RAHSIA** kerana **TIADA MAKLUMAT PENGENALAN DIRI DIAMBIL** dan **TIDAK AKAN DIDEHAHKAN**. Tiada siapa akan tahu bagaimana anda menjawab. Sila jawab berdasarkan apa yang anda tahu.

All individual information given will be kept SECRET because NO IDENTIFIERS ARE TAKEN nor WILL BE EXPOSED. No one will know how you answer. Answer the questions based on your best of knowledge.

PANDUAN MENGISI BORANG (SILA BACA DENGAN TELITI)

GUIDE ON FILING THE QUESTIONNAIRE (PLEASE READ CAREFULLY)

- JANGAN** tulis **NAMA ANDA** pada kertas soalan mahupun kertas jawapan.
DO NOT write YOUR NAME on the questionnaire or the answer sheet.
- Sila **BACA PERNYATAAN** untuk soalan yang memberikan pernyataan atau definisi sebelum menjawab soalan.
Please READ STATEMENT for questions with a preceding statement or definition before answering.
- Sila **HITAMKAN** jawapan yang bersamaan jawapan anda pada kertas jawapan yang disediakan. Hanya hitamkan **SATU JAWAPAN** bagi setiap soalan. Sila gunakan pensel 2B yang disediakan. Sekiranya lengkap, ikut arahan pegawai yang melakukan survei di sekolah/kelas anda

Please FILL IN THE CIRCLES on your answer sheet that matches your answer. There can be ONLY ONE ANSWER for each question. Use only the provided 2B pencil. When you are done, follow the instructions of the person conducting the survey in your school/class.

BERIKUT ADALAH CONTOH BAGAIMANA MENGISI JAWAPAN

HERE IS AN EXAMPLE OF HOW TO FILL IN THE CIRCLES:

ISIKAN BULATAN SEPERTI INI

FILL IN THE CIRCLES LIKE THIS

SURVEI/SURVEY

BUKAN SEPERTI INI
NOT LIKE THIS

ATAU
OR

1. Adakah ikan tinggal dalam air?

- ya
- Tidak

		5
	6	6
	7	7
	8	8
	9	9

7. Berapa berat anda dalam pakaian ringan dan tanpa memakai kasut? SILA TULIS BERAT ANDA DI KERTAS JAWAPAN DALAM KOTAK BERLAKAR DI BAHAGIAN ATAS GRID DAN HITAMKAN SETIAP NOMBOR DALAM BULATAN YANG SAMA DENGAN JAWAPAN TADI. TULIS JAWAPAN ANDA SETELAH BERAT ANDA DIUKUR SEPERTI YANG DIARAHKAN OLEH PEGAWAI YANG MENJALANKAN SURVEI.

How much do you weigh in light clothing and without your shoes on? ON THE ANSWER SHEET, WRITE YOUR WEIGHT IN THE SHADED BOXES AT THE TOP OF THE GRID. THEN FILL IN THE OVAL BELOW EACH NUMBER. ONLY WRITE YOUR ANSWER AFTER YOUR WEIGHT HAVE BEEN MEASURED AS PER INSTRUCTED BY THE PERSON WHO IS CONDUCTING YOUR SURVEY.

Contoh:

Example:

Berat/Weight (kg)		
0	5	2
0	0	0
1	1	1
2	2	
	3	3
	4	4
		5
	6	6
	7	7
	8	8
	9	9

8. Apakah pandangan anda tentang berat diri anda?

How do you describe your weight?

- Kurang berat badan
Very underweight
- Sedikit kurang berat badan
Slightly underweight
- Berat badan yang sesuai
About the right weight
- Sedikit berlebihan berat badan
Slightly overweight
- Berat badan berlebihan
Very overweight

9. Apakah yang telah anda lakukan tentang berat anda?

Which of the following are you trying to do about your weight?

- Saya tidak berbuat apa-apa tentang berat badan saya
I am not trying to do anything about my weight
- Kurangkan berat badan
Lose weight
- Tingkatkan berat badan
Gain weight
- Kekalkan berat badan
Stay the same weight

10. Dalam tempoh 30 hari yang lepas, berapa kerap anda kelaparan kerana tidak cukup makanan di rumah?

During the past 30 days, how often did you go hungry because there was not enough food in your home?

- Tidak pernah
Never
- Jarang-jarang
Rarely
- Kadang-kadang
Sometimes
- Kebanyakan masa
Most of the time
- Sentiasa
Always

7 soalan berikutnya adalah berkenaan apa yang anda mungkin makan atau minum.

The next 7 questions ask about what you might eat and drink.

11. Dalam tempoh 30 hari yang lepas, berapa kali dalam sehari anda **biasanya** makan buah?

During the past 30 days, how many times per day did you usually eat fruit?

- Saya tidak makan buah dalam 30 hari yang lepas
I did not eat fruit during the past 30 days
- Kurang dari 1 kali dalam sehari
Less than 1 time per day
- 1 kali sehari
1 time per day
- 2 kali sehari
2 times per day
- 3 kali sehari
3 times per day
- 4 kali sehari
4 times per day
- 5 kali atau lebih sehari
5 or more times per day

12. Dalam tempoh 30 hari yang lepas, berapa kali dalam sehari anda **biasanya** makan sayur?

During the past 30 days, how many times per day did you usually eat vegetables?

- Saya tidak makan sayur dalam 30 hari yang lepas
I did not eat vegetables during the past 30 days
- Kurang dari 1 kali dalam sehari
Less than 1 time per day
- 1 kali sehari
1 time per day
- 2 kali sehari
2 times per day
- 3 kali sehari
3 times per day
- 4 kali sehari
4 times per day
- 5 kali atau lebih sehari
5 or more times per day

2012

13. Dalam tempoh 30 hari yang lepas, berapa kali dalam sehari anda **biasanya** minum air berkarbonat seperti Coca Cola, Sprite, Pepsi dan lain-lain? (Air berkarbonat diet **tidak termasuk** dalam kumpulan ini)
During the past 30 days, how many times per day did you usually drink carbonated soft drinks such as Coca Cola, Sprite, and Pepsi? (Do not include diet soft drinks)
- Saya tidak minum air berkarbonat dalam 30 hari yang lepas
I did not drink carbonated soft drinks during the past 30 days
 - Kurang dari 1 kali dalam sehari
Less than 1 time per day
 - 1 kali sehari
1 time per day
 - 2 kali sehari
2 times per day
 - 3 kali sehari
3 times per day
 - 4 kali sehari
4 times per day
 - 5 kali atau lebih sehari
5 or more times per day
14. Dalam tempoh 30 hari yang lepas, berapa kali dalam sehari anda **biasanya** minum air kosong seperti air mineral, air masak, atau air paip?
During the past 30 days, how many times per day did you usually drink plain water such as mineral water, boiled water, or tap water?
- Saya tidak minum air kosong dalam 30 hari yang lepas
I did not drink plain water during the past 30 days
 - Kurang dari 1 kali dalam sehari
Less than 1 time per day
 - 1 kali sehari
1 time per day
 - 2 kali sehari
2 times per day
 - 3 kali sehari
3 times per day
 - 4 kali sehari
4 times per day
 - 5 kali atau lebih sehari
5 or more times per day
15. Dalam tempoh 30 hari yang lepas, berapa kali dalam sehari anda **biasanya** minum susu atau makan produk tenusu seperti susu, keju, yogurt dan lain-lain? (Ini tidak termasuk susu pekat manis)
During the past 30 days, how many times per day did you usually drink milk or eat milk products, such as milk, cheese, and yogurt? (This does not include sweetened condensed milk)
- Saya tidak minum susu atau makan produk tenusu dalam tempoh 30 hari yang lepas
I did not drink milk or eat milk products during the past 30 days
 - Kurang dari 1 kali dalam sehari
Less than 1 time per day
 - 1 kali sehari
1 time per day
 - 2 kali sehari
2 times per day
 - 3 kali sehari
3 times per day
 - 4 kali sehari
4 times per day
 - 5 kali atau lebih sehari
5 or more times per day
16. Dalam tempoh 7 hari yang lepas, berapa hari anda makan makanan segera dari **restoran makanan segera** seperti McDonalds, KFC, dan Pizza Hut?
During the past 7 days, on how many days did you eat food from a fast food restaurant, such as McDonalds, KFC, and Pizza Hut?
- 0 hari
0 days
 - 1 hari
1 day
 - 2 hari
2 days

BAHAGIAN 3

PART 3

5 soalan seterusnya adalah berkenaan amalan pembersihan gigi.

The next 5 questions ask about cleaning your teeth.

18. Dalam tempoh 30 hari yang lepas, berapa kali dalam sehari anda membersih atau memberus gigi anda?
During the past 30 days, how many times per day did you usually clean or brush your teeth?
- Saya tidak membersih atau memberus gigi dalam 30 hari yang lepas
I did not clean or brush my teeth during the past 30 days
 - Kurang dari 1 kali dalam sehari
Less than 1 time per day
 - 1 kali sehari
1 time per day
 - 2 kali sehari
2 times per day
 - 3 kali sehari
3 times per day
 - 4 kali atau lebih sehari
4 or more times per day
19. Dalam tempoh 12 bulan yang lepas, adakah sakit gigi menyebabkan anda tidak hadir ke kelas atau sekolah?
During the past 12 months, did a tooth ache cause you to miss classes or school?
- Ya
Yes
 - Tidak
No
20. Adakah anda menggunakan ubat gigi berflourida?
Do you use toothpaste that contains fluoride?
- Ya
Yes
 - Tidak
No
 - Tidak tahu
I do not know
21. Bilakah kali terakhir anda berjumpa doktor gigi atau jururawat pergigian untuk pemeriksaan, pembersihan gigi atau rawatan pergigian yang lain?
When was the last time you saw a dentist or dental nurse for a check-up, teeth cleaning, or other dental treatment?
- Dalam tempoh 12 bulan yang lepas
During the past 12 months
 - Di antara 12 hingga 24 bulan yang lepas
Between 12 and 24 months ago
 - Lebih daripada 24 bulan yang lepas
More than 24 months ago
 - Tidak pernah
Never
 - Tidak tahu
I do not know
22. Adakah anda mengelak untuk senyum atau ketawa kerana risau dengan rupa gigi anda?
Do you avoid smiling or laughing because of how your teeth look?
- Ya
Yes
 - Tidak
No

3 soalan seterusnya adalah berkenaan amalan membasuh tangan.

The next 3 questions ask you about washing your hands.

23. Dalam tempoh 30 hari yang lepas, berapa kerap anda membasuh tangan sebelum makan?

During the past 30 days, how often did you wash your hands before eating?

- a. Tidak pernah
Never
- b. Jarang-jarang
Rarely
- c. Kadang-Kadang
Sometimes
- d. Kebanyakan masa
Most of the time
- e. Setiap kali
Always

24. Dalam tempoh 30 hari yang lepas, berapa kerap anda membasuh tangan selepas menggunakan tandas?

During the past 30 days, how often did you wash your hands after using the toilet or latrine?

- a. Tidak pernah
Never
- b. Jarang-jarang
Rarely
- c. Kadang-Kadang
Sometimes
- d. Kebanyakan masa
Most of the time
- e. Setiap kali
Always

25. Dalam tempoh 30 hari yang lepas, berapa kerap anda menggunakan sabun semasa membasuh tangan anda?

During the past 30 days, how often did you use soap when washing your hands?

- a. Tidak pernah
Never
- b. Jarang-jarang
Rarely
- c. Kadang-Kadang
Sometimes
- d. Kebanyakan masa
Most of the time
- e. Setiap kali
Always

BAHAGIAN 4

PART 4

SILA BACA PERNYATAAN DI BAWAH:

Soalan berikutnya adalah berkenaan serangan fizikal. Serangan fizikal berlaku apabila seorang atau lebih ramai orang menyerang individu lain dengan anggota badan atau senjata seperti kayu, pisau atau senjata api. Serangan fizikal tidak diambil kira jika dua individu atau pelajar yang sama saiz atau kekuatan bersetuju untuk bergaduh secara fizikal.

PLEASE READ THE STATEMENT BELOW:

The next question asks about physical attacks. A physical attack occurs when one or more people hit or strike someone, or when one or more people hurt another person with a weapon (such as a stick, knife, or gun). It is not a physical attack when two individuals or students of about the same strength or power choose to fight each other.

26. Dalam tempoh 12 bulan yang lepas, berapa kali anda telah diserang secara fizikal?
During the past 12 months, how many times were you physically attacked?
- 0 kali
0 times
 - 1 kali
1 time
 - 2 atau 3 kali
2 or 3 times
 - 4 atau 5 kali
4 or 5 times
 - 6 atau 7 kali
6 or 7 times
 - 8 atau 9 kali
8 or 9 times
 - 10 atau 11 kali
10 or 11 times
 - 12 kali atau lebih
12 or more times

SILA BACA PERNYATAAN DI BAWAH:

Soalan seterusnya adalah berkaitan dengan pergaduhan fizikal. Pergaduhan fizikal berlaku apabila dua individu atau pelajar yang sama saiz atau kekuatan bersetuju untuk bergaduh secara fizikal.

PLEASE READ THE STATEMENT BELOW:

The next question asks about physical fights. A physical fight occurs when two individuals or students of about the same strength or power choose to fight each other.

27. Dalam tempoh 12 bulan yang lepas, berapa kali anda terlibat dalam pergaduhan secara fizikal?
During the past 12 months, how many times were you in a physical fight?
- 0 kali
0 times
 - 1 kali
1 time
 - 2 atau 3 kali
2 or 3 times
 - 4 atau 5 kali
4 or 5 times
 - 6 atau 7 kali
6 or 7 times
 - 8 atau 9 kali
8 or 9 times
 - 10 atau 11 kali
10 or 11 times
 - 12 kali atau lebih
12 or more times

SILA BACA PERNYATAAN DI BAWAH:

3 soalan seterusnya adalah berkenaan kecederaan serius yang pernah anda alami. Kecederaan serius berlaku apabila anda tidak hadir sekurang-kurangnya satu hari aktiviti biasa yang dilakukan (termasuk sekolah, sukan atau kerja) atau kecederaan yang memerlukan rawatan daripada doktor atau anggota kesihatan.

PLEASE READ THE STATEMENT BELOW:

The next 3 questions ask about serious injuries that happened to you. An injury is serious when it makes you miss at least one full day of usual activities (such as school, sports, or a job) or requires treatment by a doctor or medical personnel.

28. Dalam tempoh 12 bulan yang lepas, berapa kali anda mengalami **kecederaan serius**?
During the past 12 months, how many times were you seriously injured?

- a. 0 kali
0 times
- b. 1 kali
1 time
- c. 2 atau 3 kali
2 or 3 times
- d. 4 atau 5 kali
4 or 5 times
- e. 6 atau 7 kali
6 or 7 times
- f. 8 atau 9 kali
8 or 9 times
- g. 10 atau 11 kali
10 or 11 times
- h. 12 kali atau lebih
12 or more times

29. Dalam tempoh 12 bulan yang lepas, apakah kecederaan yang **paling serius** yang anda pernah alami?

During the past 12 months, what was the most serious injury that happened to you?

- a. Saya tidak mengalami kecederaan dalam tempoh 12 bulan yang lepas
I was not seriously injured during the past 12 months
- b. Patah tulang atau sendi terkehel/terkeluar
I had a broken bone or a dislocated joint
- c. Luka atau tikaman
I had a cut or stab wound
- d. Gegaran (konkusi) kepala atau kecederaan leher, pengsan, atau tidak boleh bernafas
I had a concussion or other head or neck injury, was knocked out, or could not breathe
- e. Kecederaan senjata api
I had a gunshot wound
- f. Kebakaran kulit yang serius
I had a bad burn
- g. Diracun atau mengambil ubat berlebihan
I was poisoned or took too much of a drug
- h. Sesuatu yang lain berlaku kepada saya
Something else happened to me

SURVEI KESIHATAN PELAJAR SEKOLAH GLOBAL (GSHS) MALAYSIA
GLOBAL SCHOOL-BASED STUDENT HEALTH SURVEY (GSHS) MALAYSIA

2012

30. Dalam tempoh 12 bulan yang lepas, apakah **penyebab utama** terhadap kecederaan **serius** yang anda alami?
*During the past 12 months, what was the major cause of the most **serious** injury that happened to you?*

- a. Saya tidak mengalami kecederaan dalam 12 bulan yang lepas
I was not seriously injured during the past 12 months
- b. Saya terlibat dalam kemalangan kenderaan
I was in a motor vehicle accident or hit by a motor vehicle
- c. Saya terjatuh
I fell
- d. Sesuatu telah jatuh atau terkena saya
Something fell on me or hit me
- e. Saya telah diserang atau didera atau bergaduh dengan orang lain
I was attacked or abused or was fighting with someone
- f. Saya terlibat dalam kebakaran atau berada terlalu dekat dengan api atau sesuatu yang panas
I was in a fire or too near a flame or something hot
- g. Saya sedut atau telan sesuatu yang membahayakan saya
I inhaled or swallowed something bad for me
- h. Sesuatu yang lain menyebabkan kecederaan saya
Something else caused my injury

SILA BACA PERNYATAAN DI BAWAH:

2 soalan seterusnya adalah berkenaan buli. Buli berlaku apabila seorang atau sekumpulan pelajar mengata atau melakukan sesuatu yang tidak menyenangkan pelajar lain. Seseorang juga boleh dikatakan dibuli apabila dia diejek secara berterusan atau dipulaukan dengan sengaja. Buli tidak diambil kira apabila dua pelajar yang sama saiz atau kekuatan bergaduh atau ejekan dilakukan secara bergurau atau berseronok bagi kedua-dua pihak.

PLEASE READ THE STATEMENT BELOW:

The next 2 questions ask about bullying. Bullying occurs when a student or group of students say or do bad or unpleasant things to another student. It is also bullying when a student is teased a lot in an unpleasant way or when a student is left out of things on purpose. It is not bullying when two students of about the same strength or power argue or fight or when teasing is done in a friendly and fun way.

31. Dalam tempoh 30 hari yang lepas, berapa hari anda telah dibuli?

During the past 30 days, on how many days were you bullied?

- a. 0 hari
0 days
- b. 1 atau 2 hari
1 or 2 days
- c. 3 hingga 5 hari
3 to 5 days
- d. 6 hingga 9 hari
6 to 9 days
- e. 10 hingga 19 hari
10 to 19 days
- f. 20 hingga 29 hari
20 to 29 days
- g. Kesemua 30 hari
All 30 days

SURVEI KESIHATAN PELAJAR SEKOLAH GLOBAL (GSHS) MALAYSIA
GLOBAL SCHOOL-BASED STUDENT HEALTH SURVEY (GSHS) MALAYSIA

2012

32. Dalam 30 hari yang lepas, apakah perlakuan buli **paling kerap** anda alami?

During the past 30 days, how were you bullied most often?

- a. Saya tidak dibuli dalam 30 hari yang lepas
I was not bullied during the past 30 days
- b. Saya telah dipukul, ditendang, ditolak atau dikunci dalam suatu tempat
I was hit, kicked, pushed, shoved around, or locked indoors
- c. Saya telah diejek kerana bangsa, kerakyatan atau warna kulit saya
I was made fun of because of my race, nationality, or color
- d. Saya telah diejek kerana agama saya
I was made fun of because of my religion
- e. Saya telah diejek dengan ejekan seksual seperti secara komen, perilaku atau gurauan
I was made fun of with sexual jokes, comments, or gestures
- f. Saya telah dipulau dari apa-apa aktiviti secara sengaja atau langsung tidak dipedulikan
I was left out of activities on purpose or completely ignored
- g. Saya diejek kerana bentuk badan atau paras rupa saya
I was made fun of because of how my body or face looks
- h. Saya telah dibuli dengan cara lain
I was bullied in some other way

SILA BACA PERNYATAAN DI BAWAH:

2 soalan berikutnya adalah berkenaan deraan fizikal dan lisan di rumah. Apabila seseorang memukul atau mengatakan ayat yang menyakitkan hati ianya diambil kita sebagai deraan fizikal dan lisan.

PLEASE READ THE STATEMENT BELOW:

The next 2 questions ask about physical and verbal abuse at home. When someone hits you or says hurtful or insulting things to you it is called physical abuse or verbal abuse.

33. Dalam tempoh 30 hari yang lepas, adakah anda telah dipukul di rumah sehingga meninggalkan kesan atau mengalami kecederaan?

During the past 30 days, how many times did someone at home hit you so hard that they left a mark or caused an injury?

- a. 0 kali
0 times
- b. 1 kali
1 time
- c. 2 atau 3 kali
2 or 3 times
- d. 4 atau 5 kali
4 or 5 times
- e. 6 atau 7 kali
6 or 7 times
- f. 8 atau 9 kali
8 or 9 times
- g. 10 atau 11 kali
10 or 11 times
- h. 12 kali atau lebih
12 or more times

49. Jika kawan rapat anda menghulurkan rokok, adakah anda akan menghisapnya?

If one of your best friends offered you a cigarette would you smoke it?

- a. Tidak akan
Definitely not
- b. Mungkin tidak
Probably not
- c. Mungkin ya
Maybe yes
- d. Memang ya
Definitely yes

BAHAGIAN 7**PART 7****SILA BACA PERNYATAAN DI BAWAH:**

6 soalan berikutnya adalah berkenaan meminum minuman beralkohol. Satu "minuman" merujuk kepada satu gelas wain tuak, lihing, bahar, ijuk atau tody; sebotol bir; segelas kecil arak, langkau, montoku; atau minuman campuran. Minuman beralkohol tidak termasuk beberapa hirup wain untuk tujuan keagamaan.

PLEASE READ THE STATEMENT BELOW:

The next 6 questions ask about drinking alcohol. A "drink" is a glass of wine, tuak, lihing, bahar, ijuk or toddy; a bottle of beer; a small glass of liquor; or a mixed drink. Drinking alcohol does not include drinking a few sips of wine for religious purposes.

50. Berapakah umur anda ketika kali pertama anda minum minuman beralkohol?

How old were you when you had your first drink of alcohol?

- a. Saya tidak pernah minum minuman beralkohol
I have never had a drink of alcohol
- b. 7 tahun atau ke bawah
7 years old or younger
- c. 8 atau 9 tahun
8 or 9 years old
- d. 10 atau 11 tahun
10 or 11 years old
- e. 12 atau 13 tahun
12 or 13 years old
- f. 14 atau 15 tahun
14 or 15 years old
- g. 16 tahun atau ke atas
16 years old or older

51. Dalam tempoh 30 hari yang lepas, berapa hari anda mengambil sekurang-kurangnya satu minuman mengandungi alkohol?

During the past 30 days, on how many days did you have at least one drink containing alcohol?

- a. 0 hari
0 days
- b. 1 atau 2 hari
1 or 2 days
- c. 3 hingga 5 hari
3 to 5 days
- d. 6 hingga 9 hari
6 to 9 days
- e. 10 hingga 19 hari
10 to 19 days
- f. 20 hingga 29 hari
20 to 29 days
- g. Kesemua 30 hari
All 30 days

52. Dalam tempoh 30 hari yang lepas, pada hari anda minum minuman beralkohol; berapa banyak minuman yang anda **biasa** ambil dalam sehari?
During the past 30 days, on the days you drank alcohol; how many drinks did you usually drink per day?
- Saya tidak minum minuman beralkohol dalam 30 hari yang lepas
I did not drink alcohol during the past 30 days
 - Kurang dari satu minuman
Less than one drink
 - 1 minuman
1 drink
 - 2 minuman
2 drinks
 - 3 minuman
3 drinks
 - 4 minuman
4 drinks
 - 5 minuman atau lebih
5 or more drinks
53. Dalam tempoh 30 hari yang lepas, **biasanya** bagaimana anda mendapatkan minuman beralkohol? **SILA PILIH SATU JAWAPAN SAHAJA**
During the past 30 days, how did you usually get the alcohol you drank? SELECT ONLY ONE RESPONSE
- Saya tidak minum minuman beralkohol dalam 30 hari yang lepas
I did not drink alcohol during the past 30 days
 - Saya beli dari kedai atau gerai
I bought it in a store, shop, or from a street vendor
 - Saya beri duit kepada orang lain untuk membeli
I gave someone else money to buy it for me
 - Kawan saya yang beri kepada saya
I got it from my friends
 - Keluarga saya beri kepada saya
I got it from my family
 - Saya curi atau ambil tanpa kebenaran
I stole it or got it without permission
 - Saya memperolehi dari cara lain
I got it some other way

SILA BACA PERNYATAAN DI BAWAH:

Terhuyung-hayang semasa berjalan, tidak mampu bercakap dengan betul, dan muntah adalah tanda seseorang itu terlalu mabuk.

PLEASE READ THE STATEMENT BELOW:

Staggering when walking, not being able to speak right, and throwing up are some signs of being really drunk.

54. Sepanjang hidup anda, berapa kali anda minum minuman alkohol berlebihan sehingga betul-betul mabuk?
During your life, how many times did you drink so much alcohol that you were really drunk?
- 0 kali
0 times
 - 1 atau 2 kali
1 or 2 times
 - 3 hingga 9 kali
3 to 9 times
 - 10 kali atau lebih
10 or more times
55. Sepanjang hidup anda, berapa kali anda mendapat kesusahan dengan ahli keluarga atau kawan, tidak ke sekolah, atau bertumbuk, akibat daripada minum minuman beralkohol?
During your life, how many times have you got into trouble with your family or friends, missed school, or got into fights, as a result of drinking alcohol?
- 0 kali
0 times
 - 1 atau 2 kali
1 or 2 times
 - 3 hingga 9 kali
3 to 9 times
 - 10 kali atau lebih
10 or more times

BAHAGIAN 8**PART 8****SILA BACA PERNYATAAN DI BAWAH:**

4 soalan berikutnya adalah berkenaan penggunaan dadah termasuk heroin, morfin, gam, amfitamin, ecstasy, syabu, ice dan ganja. Ini tidak termasuk ubat-ubatan preskripsi.

PLEASE READ THE STATEMENT BELOW:

The next 4 questions ask about drug use. This includes heroin, morphine, glue, amphetamine, ecstasy, syabu, ice, ganja. This does not include prescribed medicine.

56. Berapa umur anda ketika **pertama kali** anda menggunakan dadah?
How old were you when you first used drugs?
- Saya tidak pernah menggunakan dadah
I have never used drugs
 - 7 tahun atau ke bawah
7 years old or younger
 - 8 atau 9 tahun
8 or 9 years old
 - 10 atau 11 tahun
10 or 11 years old
 - 12 atau 13 tahun
12 or 13 years old
 - 14 atau 15 tahun
14 or 15 years old
 - 16 tahun atau ke atas
16 years old or older
57. Sepanjang hidup anda, berapa kali anda telah menggunakan dadah?
During your life, how many times have you used drugs?
- 0 kali
0 times
 - 1 atau 2 kali
1 or 2 times
 - 3 hingga 9 kali
3 to 9 times
 - 10 hingga 19 kali
10 to 19 times
 - 20 kali atau lebih
20 or more times
58. Dalam tempoh 30 hari yang lepas, berapa kali anda menggunakan dadah?
During the past 30 days, how many times have you used drugs?
- 0 kali
0 times
 - 1 atau 2 kali
1 or 2 times
 - 3 hingga 9 kali
3 to 9 times
 - 10 hingga 19 kali
10 to 19 times
 - 20 kali atau lebih
20 or more times
59. Dalam tempoh 30 hari yang lepas, bagaimana biasanya anda mendapatkan dadah yang anda gunakan? **SILA PILIH SATU JAWAPAN SAHAJA**
During the past 30 days, how did you usually get the drugs you used? SELECT ONLY ONE RESPONSE
- Saya tidak menggunakan dadah dalam 30 hari yang lepas
I did not use drugs during the past 30 days
 - Saya beli dari orang lain
I bought them from someone
 - Saya beri duit kepada orang lain untuk membeli
I gave someone else money to buy it for me
 - Saya mencuri atau mengambil tanpa kebenaran
I stole it or got it without permission
 - Kawan saya yang beri kepada saya
I got it from my friends
 - Keluarga saya beri kepada saya
I got it from my family
 - Saya memperolehi dari cara lain
I got it some other way

BAHAGIAN 9

PART 9

SILA BACA PERNYATAAN DI BAWAH:

5 soalan berikutnya adalah berkenaan hubungan seksual. Hubungan seksual adalah perlakuan seks yang melibatkan memasukkan zakar ke dalam faraj atau dubur.

PLEASE READ THE STATEMENT BELOW:

The next 5 questions ask about sexual intercourse. Sexual intercourse is defined as sexual acts of penetration of penis into vagina or anus.

63. Pernahkah anda melakukan hubungan seksual/persetubuhan?
Have you ever had sexual intercourse?
- Ya
Yes
 - Tidak
No
64. Berapa umur anda ketika kali pertama melakukan hubungan seksual/persetubuhan?
How old were you when you had sexual intercourse for the first time?
- Saya tidak pernah melakukan hubungan seksual/persetubuhan
I have never had sexual intercourse
 - 11 tahun atau ke bawah
11 years old or younger
 - 12 tahun
12 years old
 - 13 tahun
13 years old
 - 14 tahun
14 years old
 - 15 tahun
15 years old
 - 16 tahun atau ke atas
16 years old or older
65. Sepanjang hidup anda, berapa ramai orang yang anda telah lakukan hubungan seksual/persetubuhan?
During your life, with how many people have you had sexual intercourse?
- Saya tidak pernah melakukan hubungan seksual/persetubuhan
I have never had sexual intercourse
 - 1 orang
1 person
 - 2 orang
2 people
 - 3 orang
3 people
 - 4 orang
4 people
 - 5 orang
5 people
 - 6 orang atau lebih
6 or more people
66. Kali terakhir anda melakukan hubungan seksual/persetubuhan; adakah anda atau pasangan anda menggunakan kondom?
The last time you had sexual intercourse; did you or your partner use a condom?
- Saya tidak pernah melakukan hubungan seksual/persetubuhan
I have never had sexual intercourse
 - Ya
Yes
 - Tidak
No

67. Kali terakhir anda melakukan hubungan seksual/persetubuhan, adakah anda atau pasangan anda menggunakan kaedah pencegahan kehamilan lain seperti teknik pancutan luar, masa selamat, pil pencegah kehamilan, ataupun kaedah lain?

The last time you had sexual intercourse, did you or your partner use any other method of birth control, such as withdrawal, safe time, birth control pills, or any other method to prevent pregnancy?

a. Saya tidak pernah melakukan hubungan seksual/persetubuhan

I have never had sexual intercourse

b. Ya

Yes

c. Tidak

No

d. Tidak tahu

I do not know

BAHAGIAN 10**PART 10****SILA BACA PERNYATAAN DIBAWAH:**

4 soalan seterusnya adalah berkenaan aktiviti fizikal. Aktiviti fizikal adalah apa-apa aktiviti yang meningkatkan kadar denyutan jantung dan menyebabkan kita bernafas dengan kuat. Aktiviti fizikal boleh dilakukan dalam sukan, bermain dengan kawan, atau berjalan ke sekolah. Contoh aktiviti fizikal termasuklah berlari, berjalan pantas, berbasikal, menari, dan bola sepak.

PLEASE READ THE STATEMENT BELOW:

The next 4 questions ask about physical activity. Physical activity is any activity that increases your heart rate and makes you breathe hard. Physical activity can be done in sports, playing with friends, or walking to school. Some examples of physical activity are running, fast walking, biking, dancing, and football.

68. Dalam tempoh 7 hari yang lepas, berapa hari anda melakukan aktiviti fizikal untuk sekurang-kurangnya 60 minit setiap hari? **JUMLAHKAN MASA ANDA MELAKUKAN APA-APA AKTIVITI FIZIKAL SETIAP HARI**
During the past 7 days, on how many days were you physically active for a total of at least 60 minutes per day? ADD UP ALL THE TIME YOU SPENT IN ANY KIND OF PHYSICAL ACTIVITY EACH DAY

- a. 0 hari
0 days
- b. 1 hari
1 day
- c. 2 hari
2 days
- d. 3 hari
3 days
- e. 4 hari
4 days
- f. 5 hari
5 days
- g. 6 hari
6 days
- h. 7 hari
7 days

69. Dalam tempoh 7 hari yang lepas, berapa hari anda berjalan kaki atau berbasikal ke sekolah atau balik ke rumah?

During the past 7 days, on how many days did you walk or ride a bicycle to or from school?

- a. 0 hari
0 days
- b. 1 hari
1 day
- c. 2 hari
2 days
- d. 3 hari
3 days
- e. 4 hari
4 days
- f. 5 hari
5 days
- g. 6 hari
6 days
- h. 7 hari
7 days

2012

70. Sepanjang tahun persekolahan tahun ini, berapa kali anda mengikuti kelas pendidikan jasmani dan kesihatan (PJK) setiap minggu?

During this school year, on how many days did you go to physical education class (PE) each week?

- a. 0 hari
0 days
- b. 1 hari
1 day
- c. 2 hari
2 days
- d. 3 hari
3 days
- e. 4 hari
4 days
- f. 5 hari atau lebih
5 or more days

SILA BACA PERNYATAAN DIBAWAH:

Soalan berikutnya adalah berkenaan masa yang anda habiskan dengan duduk semasa tidak di sekolah atau semasa membuat kerja rumah.

PLEASE READ THE STATEMENT BELOW:

The next question asks about the time you spend mostly sitting when you are not in school or doing homework.

71. Biasanya berapa masa yang anda habiskan untuk duduk sama ada untuk menonton televisyen, bermain permainan computer, berbual dengan kawan atau apa-apa aktiviti yang memerlukan anda duduk?

How much time do you spend during a typical or usual day sitting and watching television, playing computer games, talking with friends, or doing other sitting activities?

- a. Kurang dari 1 jam sehari
Less than 1 hour per day
- b. 1 hingga 2 jam sehari
1 to 2 hours per day
- c. 3 hingga 4 jam sehari
3 to 4 hours per day
- d. 5 hingga 6 jam sehari
5 to 6 hours per day
- e. 7 hingga 8 jam sehari
7 to 8 hours per day
- f. Lebih dari 8 jam sehari
More than 8 hours per day

BAHAGIAN 11**PART 11**

6 soalan seterusnya adalah berkenaan pengalaman anda di sekolah dan di rumah.

The next 6 questions ask about your experiences at school and at home.

72. Dalam tempoh 30 hari yang lepas, berapa hari anda tidak hadir ke kelas atau sekolah tanpa kebenaran?
During the past 30 days, on how many days did you miss classes or school without permission?
- 0 hari
0 days
 - 1 atau 2 hari
1 or 2 days
 - 3 hingga 5 hari
3 to 5 days
 - 6 hingga 9 hari
6 to 9 days
 - 10 hari atau lebih
10 or more days
73. Dalam tempoh 30 hari yang lepas, berapa kerap rakan sekolah anda bersikap baik hati dan suka membantu?
During the past 30 days, how often were most of the students in your school kind and helpful?
- Tidak pernah
Never
 - Jarang-jarang
Rarely
 - Kadang-kadang
Sometimes
 - Kebanyakan masa
Most of the time
 - Sentiasa
Always
74. Dalam tempoh 30 hari yang lepas, berapa kerap ibu bapa atau penjaga anda menyemak kerja sekolah anda?
During the past 30 days, how often did your parents or guardians check to see if your homework was done?
- Tidak pernah
Never
 - Jarang-jarang
Rarely
 - Kadang-kadang
Sometimes
 - Kebanyakan masa
Most of the time
 - Sentiasa
Always
75. Dalam tempoh 30 hari yang lepas, berapa kerap ibu bapa atau penjaga anda cuba memahami masalah dan kebimbangan anda?
During the past 30 days, how often did your parents or guardians understand your problems and worries?
- Tidak pernah
Never
 - Jarang-jarang
Rarely
 - Kadang-kadang
Sometimes
 - Kebanyakan masa
Most of the time
 - Sentiasa
Always

APPENDIX 10 : OPERATIONAL DEFINITION OF VARIABLES

Alcohol Consumption

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Age first drink alcohol	Q34	Weight	Age started to drink alcohol	1 = "I have never drank alcohol" 2 = "7 years old or younger" 3 = "8 or 9 years old" 4 = "10 or 11 years old" 5 = "12 or 13 years old" 6 = "14 or 15 years old" 7 = "16 years old or older"
Days one drink or more past 30 days	Q35	Weight	Number of days of consuming alcohol in the past 30 days	1 = "0 days" 2 = "1 or 2 days" 3 = "3 to 5 days" 4 = "6 to 9 days" 5 = "10 to 19 days" 6 = "20 to 29 days" 7 = "All 30 days"
Number of drinks past 30 days	Q36	Weight	Number of alcohol drinks in the past 30 days A drink: a glass of wine, tuak, lihing, bahar, ijuk or toddy; a bottle of beer; a small glass of liquor; or a mixed drink. Drinking alcohol does not include drinking a few sips of wine for religious purposes.	1 = "Did not drink in past 30 days" 2 = "Less than one drink" 3 = "1 drink" 4 = "2 drinks" 5 = "3 drinks" 6 = "4 drinks" 7 = "5 or more drinks"
How got drinks past 30 days	Q37	Weight	Ways of accessing alcohol drinks in the past 30 days	1 = "Did not drink in past 30 days" 2 = "I bought in a store" 3 = "I gave someone money to buy" 4 = "I got it from my friends" 5 = "I got it from my family" 6 = "I stole it" 7 = "I got it some other way"

Times drunk during life	Q38	Weight	Frequency of getting drunk during lifetime	1 = "0 times" 2 = "1 or 2 times" 3 = "3 to 9 times" 4 = "10 or more times"
Number of troubles as result of drinking	Q39	Weight	Number of troubles as result of drinking	1 = "0 times" 2 = "1 or 2 times" 3 = "3 to 9 times" 4 = "10 or more times"

Alcohol Consumption among Current Drinkers

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Age started to drink alcohol	Q34_new2	Weight	Age started to drink alcohol	RECODE Q34 (1=SYSMIS)(2=1) (3=2) (4=3) (5=4) (6=5) (7=6)(ELSE=SYSMIS) INTO Q34_new2. Age first alcohol before 14	QN34	Weight	Age started to drink alcohol before 14 years old among current drinker	1 = "Yes" 2 = "No"
Drank 1+ days past 30 days	QN35	Weight	Drank for more than one days for the past 30 days among current drinker	1 = "Yes" 2 = "No"
Of current drinkers, drank 2+ drinks/day 30 days	QN36	Weight	Among current drinkers who drank for more than 2 days for the past 30 days	1 = "Yes" 2 = "No"
Of current drinkers, got alcohol from friends	QN37	Weight	Among current drinkers who got alcohol from their friends	1 = "Yes" 2 = "No"
1+ times drunk in lifetime	QN38	Weight	More than one times drunk in lifetime among who drink alcohol	1 = "Yes" 2 = "No"
Alcohol trouble 1+ times in lifetime	QN39	Weight	Among who did trouble for more than one times drunk in lifetime	1 = "Yes" 2 = "No"

Dietary Behaviours

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
How tall are you	Q4	Weight	Height without shoes to the nearest cm	
How much do you weigh	Q5	Weight	Weight without shoes to the nearest kg	
How do you describe your weight	Q61	Weight	Perception on own body weight	1 = "Very underweight" 2 = "Slightly underweight" 3 = "About the right weight" 4 = "Slightly overweight" 5 = "Very overweight"
Underweight	qnunwtg	Weight	<-2SD from median for BMI by age and sex	1 = "Yes" 2 = "No"
Overweight	qnowtg	Weight	<-2SD from median for BMI by age and sex	1 = "Yes" 2 = "No"
Obese	qnobeseg	Weight	>+1SD from median for BMI by age and sex	1 = "Yes" 2 = "No"
Went hungry past 30 days	Q6	Weight	Reported hungry because there was not enough food at home	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Went hungry most of time/always past 30 days	QN6	Weight	Reported hungry most of the time or always because there was not enough food at home	1 = "Yes" 2 = "No"

Eat fruit per day past 30 days	Q7	Weight	Frequency of usually consume fruit per day in past 30 days	1 = "Did not eat fruit" 2 = "Less than one time per day" 3 = "1 time per day" 4 = "2 times per day" 5 = "3 times per day" 6 = "4 times per day" 7 = "5 or more times per day"
Ate fruit 2+ times per day past 30 days	QN7	Weight	Usually ate fruits more than twice per day in past 30 days	1 = "Yes" 2 = "No"
Eat vegetables past 30 days	Q8	Weight	Frequency of usually consume vegetables per day in past 30 days	1 = "Did not eat vegetables" 2 = "Less than one time per day" 3 = "1 time per day" 4 = "2 times per day" 5 = "3 times per day" 6 = "4 times per day" 7 = "5 or more times per day"
Ate vegetables 3+ times per day past 30 day	QN8	Weight	Usually ate vegetables more than three times per day in past 30 days	1 = "Yes" 2 = "No"
Drink soft drinks past 30 days	Q9	Weight	Frequency per day usually drink carbonated soft drinks such as Coca Cola, Sprite, and Pepsi in the past 30 days	1 = "Did not drink soft drinks" 2 = "Less than one time per day" 3 = "1 time per day" 4 = "2 times per day" 5 = "3 times per day" 6 = "4 times per day" 7 = "5 or more times per day"

Drank soft drinks 1+ times per day past 30 day	QN9	Weight	Usually consume soft drinks at least once daily in past 30 days	1 = "Yes" 2 = "No"
Drank water per day 30 days	Q63	Weight	Frequency per day usually consume plain water such as mineral water, boiled water, or tap water in the past 30 days	1 = "Did not drink plain water" 2 = "Less than one time per day" 3 = "1 time per day" 4 = "2 times per day" 5 = "3 times per day" 6 = "4 times per day" 7 = "5 or more times per day"
Ate fast food past 7 days	Q10	Weight	Frequency per day usually consume food from a fast food restaurant, such as McDonalds, KFC, and Pizza Hut in the past 7 days	1 = "0 days" 2 = "1 day" 3 = "2 days" 4 = "3 days" 5 = "4 days" 6 = "4 days" 7 = "6 days" 8 = "7 days"
Ate fast food 3+ days past 7 day	QN10	Weight	Usually consume fast food at least three days in past 7 days	1 = "Yes" 2 = "No"
Ate before 9 AM	Q65	Weight	Number of days eat a meal before 9 a.m in past 7 days (Breakfast)	1 = "0 days" 2 = "1 day" 3 = "2 days" 4 = "3 days" 5 = "4 days" 6 = "4 days" 7 = "6 days" 8 = "7 days"

Drug Use

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Age first drugs	Q40	Weight	Age when first used drugs Drug: include heroin, morphine, glue, amphetamine, ecstasy, syabu, ice, ganja (does not include prescribed medicine)	1 = "I have never use drugs" 2 = "7 years old or younger" 3 = "8 or 9 years old" 4 = "10 or 11 years old" 5 = "12 or 13 years old" 6 = "14 or 15 years old" 7 = "16 years old or older"
Used drugs lifetime	Q75	Weight	Frequency of used drugs in lifetime (Ever used drug)	1 = "0 times" 2 = "1 or 2 times" 3 = "3 to 9 times" 4 = "10 to 19 times" 5 = "20 or more times"
Used drugs past 30 days	Q76	Weight	Frequency of used drug in the past 30 days (current drug user)	1 = "0 times" 2 = "1 or 2 times" 3 = "3 to 9 times" 4 = "10 to 19 times" 5 = "20 or more times"
How got drugs usually	Q77	Weight	Sources of usually getting drugs in the past 30 days	1 = "I did not use drugs" 2 = "I bought them from someone" 3 = "I gave someone money to buy" 4 = "I stole it" 5 = "I got it from my friends" 6 = "I got it from my family" 7 = "I got it some other way"
Times used marijuana lifetime	Q41	Weight	Frequency of used marijuana in lifetime (Ever used marijuana)	1 = "0 times" 2 = "1 or 2 times" 3 = "3 to 9 times" 4 = "10 to 19 times" 5 = "20 or more times"

Times used marijuana past 30 days	Q42	Weight	Frequency of used marijuana in the past 30 days (current marijuana user)	1 = "0 times" 2 = "1 or 2 times" 3 = "3 to 9 times" 4 = "10 to 19 times" 5 = "20 or more times"
Times used amphetamines lifetime	Q43	Weight	Frequency of used amphetamines in lifetime (Ever used amphetamines)	1 = "0 times" 2 = "1 or 2 times" 3 = "3 to 9 times" 4 = "10 to 19 times" 5 = "20 or more times"
Age first drugs before 14	QN40	Weight	Age when first tried before age 14	1 = "Yes" 2 = "No"
Marijuana 1+ times in lifetime	QN41	Weight	Used marijuana for more than one times for lifetime	1 = "Yes" 2 = "No"
Marijuana 1+ times p 30 days	QN42	Weight	Used marijuana for more than one times for the past 30 days	1 = "Yes" 2 = "No"
Amphetamines 1+ times lifetime	QN43	Weight	Used amphetamines more than one times for lifetime	1 = "Yes" 2 = "No"

Hygiene (Including Oral Hygiene)

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
How many times per day brush teeth	Q11	Weight	Frequency per day clean or brush teeth in past 30 days	1 = "Did not brush my teeth" 2 = "Less than 1 time per day" 3 = "1 time per day" 4 = "2 times per day" 5 = "3 times per day" 6 = "4 or more times per day"
Cleaned/brushed teeth <1 time/day past 30 days	QN11	Weight	Clean or brush teeth less than 1 time past 30 days	1 = "Yes" 2 = "No"
Tooth ache missed class	Q66	Weight	Tooth ache causing student to miss classes or school in past 12 months	1 = "Yes" 2 = "No"
Used toothpaste with fluoride	Q67	Weight	Use toothpaste that contain fluoride	1 = "Yes" 2 = "No" 3 = "I do not know"
Last seen dentist	Q68	Weight	See a dentist or dental nurse for checkup, teeth cleaning, or other dental treatment	1 = "During the past 12 months" 2 = "Between 12 and 24 months ago" 3 = "More than 24 months ago" 4 = "Never" 5 = "I do not know"
Avoid smiling due to teeth	Q69	Weight	Avoid smiling or laughing because of teeth appearance	1 = "Yes" 2 = "No"
Wash hands before eating past 30 days	Q12	Weight	Wash hands before eating in past 30 days	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"

Never/rarely wash hands before eating past 30 days	QN 12	Weight	Never/rarely wash hand before eating in past 30 days	1 = "Yes" 2 = "No"
Wash hands after toilet past 30 day	Q13	Weight	Wash hands after using toilet in past 30 day	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Never/rarely wash hands after toilet past 30 days	QN13	Weight	Never/rarely wash hand after using toilet in past 30 days	1 = "Yes" 2 = "No"
Used soap on hands past 30 days	Q14	Weight	Used soap when washing hands in the past 30 days	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Never/rarely use soap on hands past 30 days	QN14	Weight	Never/rarely use soap when washing hands in the past 30 days	1 = "Yes" 2 = "No"

Mental Health Problems

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Times felt lonely past 12 mo.	Q22	Weight	Felt lonely in the past 12 months	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Lonely most times/always past 12 months	QN22	Weight	Felt lonely most of the times/always in the past 12 months	1 = "Yes" 2 = "No"
Worry prevented sleep most time/always past 12 mos	Q23	Weight	Worried about something that could not sleep at night in the past 12 months	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Worry prevented sleep most time/always past 12 months	QN23	Weight	Felt worry that prevented sleep most of the time/always for the past 12 months	1 = "Yes" 2 = "No"
Ever considered suicide 12 mos	Q24	Weight	Ever seriously considered attempting suicide in the past 12 months (suicidal ideation)	1 = "Yes" 2 = "No"
Ever make suicide plan 12 mos	Q25	Weight	Ever make a plan about ways to attempt suicide in the past 12 months (suicidal plan)	1 = "Yes" 2 = "No"

Times attempted suicide 12 mos.	Q26	Weight	Times actually attempted suicide in the 12 months (suicide attempt)	1 = "0 times" 2 = "1 times" 3 = "2 or 3 times" 4 = "4 or 5 times" 5 = "6 or more times"
1+ times attempt suicide 12 mos.	QN26	Weight	Attempted suicide more than one times in the past 12 months	1 = "Yes" 2 = "No"
Number close friends	Q27	Weight	Number close friends	1 = "0" 2 = "1" 3 = "2" 4 = "3 or more"

Physical Activity

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Days active 60 min plus past 7 days	Q49	Weight	Number of days were physically active for a total of at least 60 minutes per day in the past 7 days Physical activity is any activity that increases the heart rate and makes he/she breath hard. Physical activity can be done in sports, playing with friends, or walking to school. Some examples of physical activity are running, fast walking, biking, dancing, and football.	1 = "0 days" 2 = "1 days" 3 = "2 days" 4 = "3 days" 5 = "4 days" 6 = "5 day" 7 = "6 day" 8 = "7 day"
Walk or bike to school past 7 days	Q50	Weight	Walk or ride a bicycle to or from school in the past 7 days	1 = "0 days" 2 = "1 days" 3 = "2 days" 4 = "3 days" 5 = "4 days" 6 = "5 day" 7 = "6 day" 8 = "7 day"
Time spent sitting on usual day	Q52	Weight	Time usually spend during a typical or usual day sitting and watching television, playing computer games, talking with friends or doing other sitting activities.	1 = "0 days" 2 = "1 days" 3 = "2 days" 4 = "3 days" 5 = "4 days" 6 = "5 or more day"

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Active 60+ mins/day for 5+ of past 7 days	QN49	Weight	Physically active for total of at least 60 minutes in 5 days out of 7 days	1 =" Yes" 2 =" No"
Walk/Bike to/from school 0 of past 7 days	QN50	Weight	Did not walk or ride a bicycle back or from school in the past 7 days	1 =" Yes" 2 =" No"
Sitting activities 3+ hours/day of usual day	QN52	Weight	Spent 3 hours or more in a typical or usual day sitting and watching television, playing computer games, talking with friends or doing other sitting activities	1 =" Yes" 2 =" No"

Protective Factors

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Miss school no permission past 30 days	Q53	Weight	Number of days missed classes or school without permission in the past 30 days (truancy)	1 = "0 days" 2 = "1 or 2 days" 3 = "3 to 5 days" 4 = "6 to 9 days" 5 = "10 or more days"
Miss school no permission 1+ of past 30 days	QN53	Weight	Missed classes or school without permission for more than 1 day in the past 30 days	1 = "Yes" 2 = "No"
Others helpful in school past 30 days	Q54	Weight	Frequency other students in school kind and helpful in the past 30 days	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Students most/always kind 30 days	QN54	Weight	Students in school kind and helpful most of the time or always in the past 30 days	1 = "Yes" 2 = "No"
Parents check homework past 30 days	Q55	Weight	Frequency parents or guardians ensure completed homework in the past 30 days	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Parents most/always check homework	QN55	Weight	Parents or guardians most of the time or always ensure completed homework in the past 30 days	1 = "Yes" 2 = "No"
Parent understand troubles past 30 days	Q56	Weight	Frequency parents or guardians understand their problems and worries in the past 30 days	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"

Parents most/always understand problems	QN56	Weight	Parents or guardians most of the time or always understand their problems and worries in the past 30 days	1 = "Yes" 2 = "No"
Parent know what you do past 30 days	Q57	Weight	Frequency parents or guardians really know what they were doing in free time in the past 30 days	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Parents most/always know about free time	QN57	Weight	Parents or guardians most of the time or always really know what they were doing in free time in the past 30 days	1 = "Yes" 2 = "No"
Parent go through things past 30 days	Q58	Weight	Frequency parents or guardians went through their things in the past 30 days	1 = "Never" 2 = "Rarely" 3 = "Sometimes" 4 = "Most of the time" 5 = "Always"
Parents never/rarely go thru things	QN58	Weight	Parents or guardians never/rarely went through their things in the past 30 days	1 = "Yes" 2 = "No"

Sexual Behaviours that Contribute to HIV Infection, Other STIs, and Unintended Pregnancy

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Ever had sex	Q44	Weight	Ever had sexual intercourse Sexual intercourse: sexual acts of penetration of penis into vagina or anus	1 = "Yes" 2 = "No"
Age first sexual intercourse	Q45	Weight	Age when had sexual intercourse for the first time	1 = "Never had sex" 2 = "11 years old or younger" 3 = "12 years old" 4 = "13 years old" 5 = "14 years old" 6 = "15 years old" 7 = "16 years old or older"
Age first sexual intercourse before 14	QN45	Weight	Had first time sexual intercourse before the age of 14 years	1 = "Yes" 2 = "No"
How many sex partners	Q46	Weight	Number of people had sexual intercourse with in \their lifetime	1 = "Never had sex" 2 = "11 years old or younger" 3 = "12 years old" 4 = "13 years old" 5 = "14 years old" 6 = "15 years old" 7 = "16 years old or older"
2+ sex partners lifetime	QN46	Weight	Had more than two sex partners in their lifetime among those who ever had sexual intercourse	1 = "Yes" 2 = "No"

Used condom at last intercourse	Q47	Weight	Used condom during last time sexual intercourse	1 = "Never had sex" 2 = "1 person" 3 = "2 people" 4 = "3 people" 5 = "4 people" 6 = "5 people" 7 = "6 or more people"
Used condom at last sex	QN47	Weight	Used condom during last time had sexual intercourse	1 = "Yes" 2 = "No"
Used birth control last intercourse	Q48	Weight	Respondents or their partner used anyother method of birth control such as withdrawal, safe time, birth control pills, or any other method to prevent pregnancy during the last sexual intercourse	1 = "Never had sex" 2 = "Yes" 3 = "No"
Used birth control at last sex	QN48	Weight	Use any other methods to prevent pregnancy at the last sexual intercourse	1 = "Yes" 2 = "No"

Tobacco Use

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Age first tried cigarette	Q28	Weight	Age when first tried a cigarette	1 = "I have never smoked cigarettes" 2 = "7 years old or younger" 3 = "8 or 9 years old" 4 = "10 or 11 years old" 5 = "12 or 13 years old" 6 = "14 or 15 years old" 7 = "16 years old or older"
How many days smoked 30 days	Q29	Weight	Number of days smoke cigarettes during past 30 days	1 = "0 days" 2 = "1 or 2 days" 3 = "3 to 5 days" 4 = "6 to 9 days" 5 = "10 to 19 days" 6 = "20 to 29 days" 7 = "All 30 days"
Other tobacco past 30 days	Q30	Weight	Number of days use tobacco products other than cigarettes such as shisha/hookah, electronic cigarettes, snuff, chewing tobacco, pipes, curut, cigars, cigarillos or bidis during past 30 days	1 = "0 days" 2 = "1 or 2 days" 3 = "3 to 5 days" 4 = "6 to 9 days" 5 = "10 to 19 days" 6 = "20 to 29 days" 7 = "All 30 days"
Did not use other tobacco products	Q72	Weight	Type of tobacco products other than cigarettes used most often in past 30 days	1 = "Did not smoke tobacco products" 2 = "Shisha/Hookah" 3 = "Electronic cigarettes" 4 = "Snuff or chewing tobacco" 5 = "Pipes" 6 = "Curut, cigars or cigarillos" 7 = "Bidis" 8 = "Some other tobacco product"

Try stop smoking past 12 mo.	Q31	Weight	Tried to stop smoking cigarettes in the past 12 months	1 = "Yes" 2 = "No"
Others present smoking past 7 days	Q32	Weight	Number of days other people smoked in their present in past 7 days	1 = "0 days" 2 = "1 or 2 days" 3 = "3 or 4 days" 4 = "5 or 6 days" 5 = "All 7 days"
Parents who use tobacco	Q33	Weight	Parents or guardians who use any form of tobacco including cigarettes	1 = "Neither" 2 = "My father or male guardian" 3 = "My mother or female guardian" 4 = "Both" 5 = "I do not know"
Won't smoke next 12 months	Q73	Weight	Thinking of smoke a cigarette in the next 12 months	1 = "Definitely not" 2 = "Probably not" 3 = "Maybe yes" 4 = "Definitely yes"
Won't smoke if friend offered	Q74	Weight	Possibility of smoke if best friend offered a cigarette	1 = "Definitely not" 2 = "Probably not" 3 = "Maybe yes" 4 = "Definitely yes"
Age first cigarette before 14	QN28	Weight	Aged below 14 when first tried cigarette, among smokers	1 = "Yes" 2 = "No"
Smoked cigarettes 1+ of past 30 days	QN29	Weight	Smoked a cigarettes more than one times for the past 30 days	1 = "Yes" 2 = "No"
Used other tobacco 1+ of past 30 days	QN30	Weight	Used other tobacco more than one times for the past 30 days	1 = "Yes" 2 = "No"
Others present smoking 1+ of past 7 days	QN32	Weight	Other people smoke in their presence more than one day in the past 7 days	1 = "Yes" 2 = "No"
Won't smoke next 12 months	QN73	Weight	Won't smoke for the next 12 months among who had smoke	1 = "Yes" 2 = "No"

Violence and Unintentional Injury

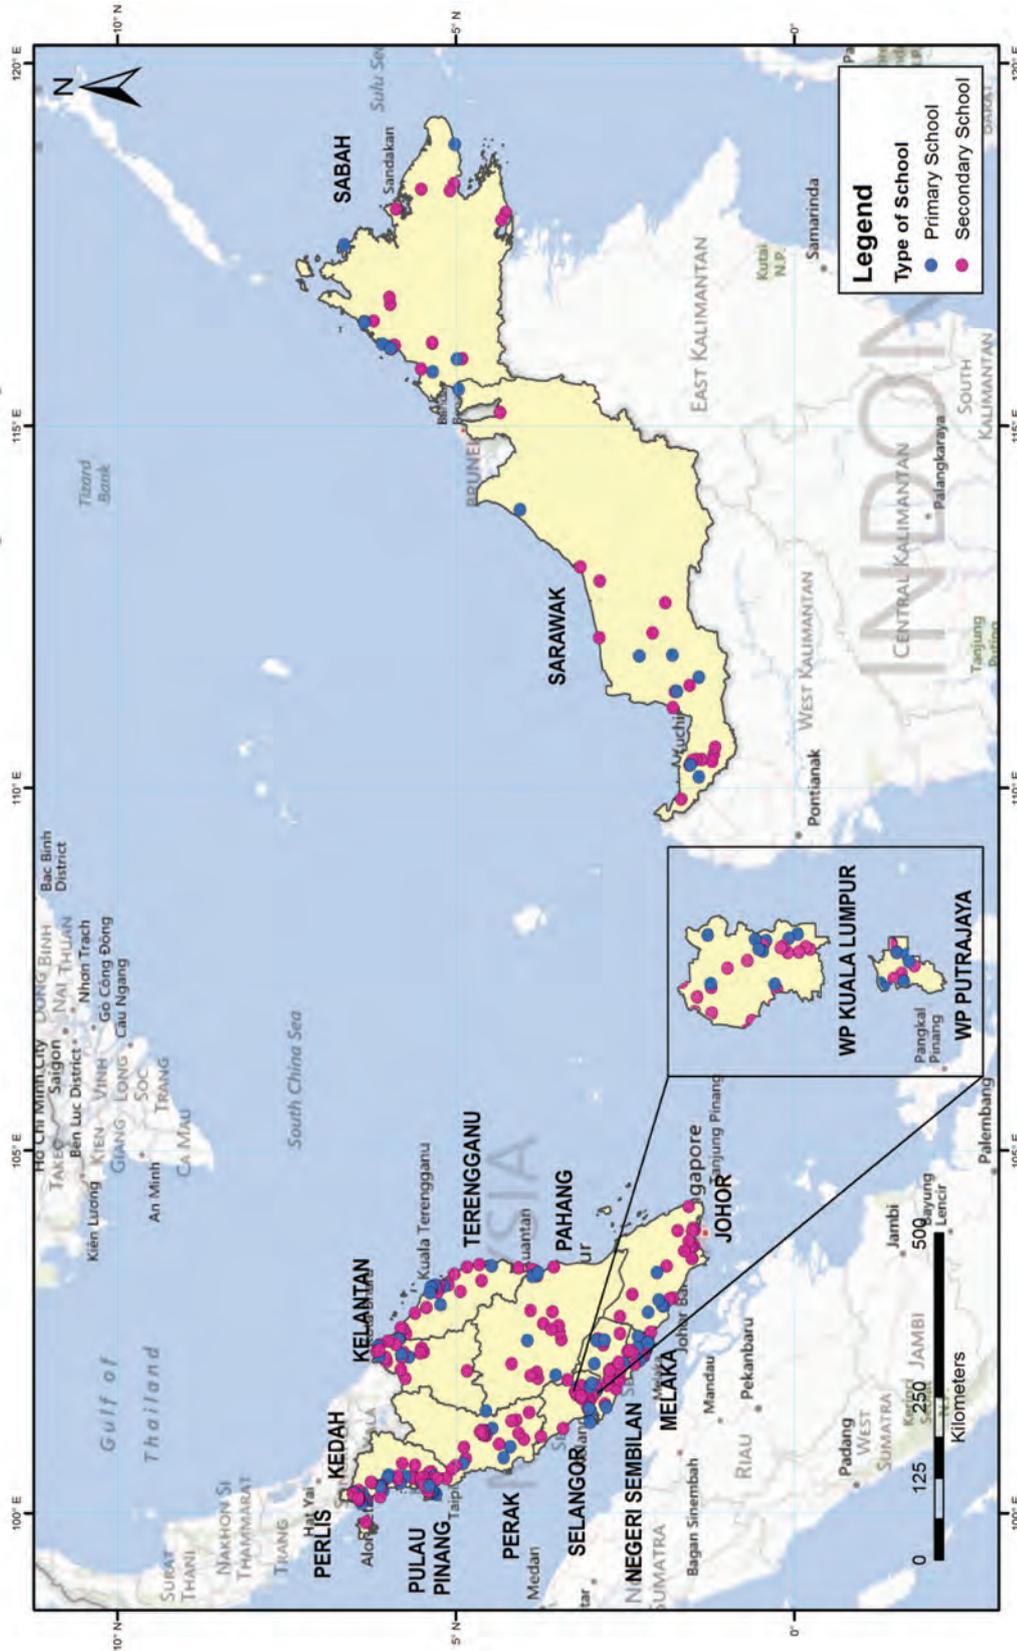

Variable Name	Variable In SPSS	Weight	Definition	SPSS Variable Definition
Times attacked past 12 mo.	Q15	Weight	Number of times were physically attacked in the past 12 months. Physical attack: when one or more people hit or strike someone, or when one or more people hurt another person with a weapon (such as stick, knife, or gun). It is not a physical attack when two individuals or students of about the same strength or power choose to fight each other.	1 = "0 times" 2 = "1 times" 3 = "2 or 3 times" 4 = "4 or 5 times" 5 = "6 or 7 times" 6 = "8 or 9 times" 7 = "10 or 11 times" 8 = "12 or more times"
Attacked 1+ times past 12 months	QN15	Weight	Physically attacked at least one time in the past 12 months	1 = "Yes" 2 = "No"
How many times in fight 12 mos	Q16	Weight	Number of times in a physical fight in the past 12 months Physical fight: when two individuals or students of about the same strength or power choose to fight each other	1 = "0 times" 2 = "1 times" 3 = "2 or 3 times" 4 = "4 or 5 times" 5 = "6 or 7 times" 6 = "8 or 9 times" 7 = "10 or 11 times" 8 = "12 or more times"
In fight 1+ times past 12 months	QN16	Weight	In a physical fight for one time or more in the past 12 months	1 = "Yes" 2 = "No"

How many times injured past 12 months	Q17	Weight	Number of times seriously injured in the past 12 months Serious injury: makes he/she missed at least one full day of usual activities (such as school, sports, or a job) or requires treatment by a doctor or medical personnel	1 = "0 times" 2 = "1 times" 3 = "2 or 3 times" 4 = "4 or 5 times" 5 = "6 or 7 times" 6 = "8 or 9 times" 7 = "10 or 11 times" 8 = "12 or more times"
Seriously injured 1+ times past 12 months	QN17	Weight	Seriously injured at least once in the past 12 months	1 = "Yes" 2 = "No"
What was serious injury past 12 mo.	Q18	Weight	Type of the most serious injury sustained in the past 12 months.	1 = "Not seriously injured" 2 = "Broken bone/dislocated joint" 3 = "I had a cut or stab wound" 4 = "Concussion/head injury" 5 = "I had a gunshot wound" 6 = "I had a bad burn" 7 = "I was poisoned" 8 = "Something else happened to me"
Broken bone as most serious injury	QN18	Weight	Broken bone as most serious injury	1 = "Yes" 2 = "No"
Cause of injury past 12 mo.	Q19	Weight	Major cause of the most serious injury sustained in the past 12 months.	1 = "Not seriously injured" 2 = "Broken bone/dislocated joint" 3 = "I had a cut or stab wound" 4 = "Concussion/head injury" 5 = "I had a gunshot wound" 6 = "I had a bad burn" 7 = "I was poisoned" 8 = "Something else happened to me"
Motor vehicle caused most serious injury	QN19	Weight	Motor vehicle caused the most serious injury	1 = "Yes" 2 = "No"

How many days bullied past 30 days	Q20	Weight	Number of days bullied in the past 30 days Bullying: a student or group of students say or do bad or unpleasant things to another students. Or when a student is teased a lot in an unpleasant way or when a student is left out of things on purpose. Not considered bully when two students of about the same strength or power argue or fight or when teasing is done in a friendly and fun way	1 = "0 days" 2 = "1 or 2 days" 3 = "3 to 5 days" 4 = "6 to 9 days" 5 = "10 to 19 days" 6 = "20 to 29 days" 7 = "All 30 days"
Bullied 1+ of past 30 days	QN20	Weight	Bullied at least one day in the past 30 days	1 = "Yes" 2 = "No"
How bullied past 30 days	Q21	Weight	Ways of bullied most often in the past 30 days	1 = "Not bullied" 2 = "Kicked, pushed, or shoved" 3 = "Made fun of race" 4 = "Made fun because of religion" 5 = "Made fun of about sex" 6 = "Left out of activities" 7 = "Made fun of about body" 8 = "Some other way"
Of students bullied, most often hit, kicked, etc	QN21	Weight	Bullied most often by hit, kicked, pushed, shoved around, or locked indoor	1 = "Yes" 2 = "No"
Someone hit them hard	Q70	Weight	Frequency someone at home hit them hard until left a mark or caused an injury in the past 12 months Physical abuse: someone hits he/she	1 = "0 times" 2 = "1 times" 3 = "2 or 3 times" 4 = "4 or 5 times" 5 = "6 or 7 times" 6 = "8 or 9 times" 7 = "10 or 11 times" 8 = "12 or more times"

Someone hit them hard	QN70	Weight	Someone at home hit them hard until left a mark or caused an injury at least once in the past 12 months	1 = "Yes" 2 = "No"
Say hurtful things at home	Q 71	Weight	Frequency someone at home say hurtful or insulting things to them in the past 12 months	1 = "0 times" 2 = "1 times" 3 = "2 or 3 times" 4 = "4 or 5 times" 5 = "6 or 7 times" 6 = "8 or 9 times" 7 = "10 or 11 times" 8 = "12 or more times"
Say hurtful things at home	QN71	Weight	Someone at home say hurtful or insulting things to them at least once in the past 12 months	1 = "Yes" 2 = "No"
